**PANNAPICTAGRAPHIST** - One possible term for someone who collects comic books; can you figure out why it hasn't exactly taken off in common parlance?

**PAPER COVER** - Comic book cover made from the same newsprint as the interior pages. These books are extremely rare in high grade.

**PARADE OF PLEASURE** - A book about the censorship of comics.

**PB** - Abbreviation for Paperback.

**PEDIGREE** - A book from a famous and usually high grade collection - e.g. Allentown, Lamont Larson, Edgar Church/Mile High, Denver, San Francisco, Cosmic Aeroplane,

etc. Beware of non-pedigree collections being promoted as pedigree books; only outstanding high grade collections similar to those listed qualify.

**PENCILER** - Artist that does the pencils...you're figuring out some of these definitions without us by now, aren't you?

**PERFECT BINDING** - Pages are glued to the cover as opposed to being stapled to the cover, resulting in a flat binded side. Also known as **Square Back** or **Square Bound**.

**PG** - Abbreviation for Page.

**PHOTO COVER** - Comic book cover featuring a photographic image instead of a line drawing or painting.

**PIECE REPLACEMENT** - A process by which pieces are added to replace areas of missing paper.

**PIONEER AGE** - Comics published from the 1500s to 1828.

**PLATINUM AGE** - Comics published from 1883 to 1938.

**POLYPROPYLENE** - A type of plastic used in the manufacture of comic book bags; now considered harmful to paper and not recommended for long term storage of comics.

**POP** - Abbreviation for the anti-comic book volume, *Parade of Pleasure*.

**POST-CODE** - Describes comics published after February 1955 and usually displaying the CCA stamp in the upper right-hand corner.

**POUGHKEEPSIE** - Refers to a large collection of Dell Comics file copies believed to have originated from the warehouse of Western Publishing in Poughkeepsie, NY.

**PP** - Abbreviation for Pages.

**PRE-CODE** - Describes comics published before the **Comics Code Authority** seal began appearing on covers in 1955.

**PRE-HERO DC** - A term used to describe *More Fun* #1-51

(pre-Spectre), *Adventure* #1-39 (pre-Sandman), and *Detective* #1-26 (pre-Batman). The term is actually inaccurate because technically there were "heroes" in the above books.

**PRE-HERO MARVEL** - A term used to describe *Strange Tales* #1-100 (pre-Human Torch), *Journey Into Mystery* #1-82 (pre-Thor), *Tales To Astonish* #1-35 (pre-Ant-Man), and *Tales Of Suspense* #1-38 (pre-Iron Man).

**PRESERVATION** - Another term for **Conservation**.

**PRESSING** - A term used to describe a variety of processes or procedures, professional and amateur, under which an issue is pressed to eliminate wrinkles, bends, dimples and/or other perceived defects and thus improve its appearance. Some types of pressing involve disassembling the book and performing other work on it prior to its pressing and reassembly. Some methods are generally easily discerned by professionals and amateurs. Other types of pressing, however, can pose difficulty for even experienced professionals to detect. In all cases, readers are cautioned that unintended damage can occur in some instances. Related defects will diminish an issue's grade correspondingly rather than improve it.

**PROVENANCE** - When the owner of a book is known and is stated for the purpose of authenticating and documenting the history of the book. Example: A book from the Stan Lee or Forrest Ackerman collection would be an example of a value-adding provenance.

**PULP** - Cheaply produced magazine made from low grade newsprint. The term comes from the wood pulp that was used in the paper manufacturing process.

**QUARTERLY** - Published every three months (four times a year).

**R** - Abbreviation for Reprint.

**RARE** - 10-20 copies estimated to exist.

**RBCC** - Abbreviation for Rockets Blast Comic Collector, one of the first and most prominent adzines instrumental in developing the early comic book market.

**READING COPY** - A comic that is in FAIR to GOOD condition and is often used for research; the condition has been sufficiently reduced to the point where general handling will not degrade it further.

**READING CREASE** - Book-length, vertical front cover crease at staples, caused by bending the cover over the staples. Square-bounds receive these creases just by opening the cover too far to the left.

**REILLY, TOM** - A large high grade collection of 1939-1945 comics with 5000+ books.

**REINFORCEMENT** - A process by which a weak or split page or cover is reinforced with adhesive and reinforcement paper.

**REPRINT COMICS** - In earlier decades, comic books that contained newspaper strip reprints; modern reprint comics usually contain stories originally featured in older comic books.

**RESTORATION** - Any attempt, whether professional or amateur, to enhance the appearance of an aging or damaged comic book using additive procedures. These procedures may include any or all of the following techniques: recoloring, adding missing paper, trimming, re-glossing, reinforcement, glue, etc. Amateur work can lower the value of a book, and even professional restoration has now gained a negative aura in the modern marketplace from some

quarters. In all cases a restored book can never be worth the same as an unrestored book in the same condition. There is no consensus on the inclusion of pressing, non-aqueous cleaning, tape removal and in some cases staple replacement in this definition. Until such time as there is consensus, we encourage continued debate and interaction among all interested parties and reflection upon the standards in other hobbies and art forms.

**REVIVAL** - An issue that begins republishing a comic book character after a period of dormancy.

**ROCKFORD** - A high grade collection of 1940s comics with 2000+ books from Rockford, IL.

**SUBSCRIPTION FOLD** - See **Subscription Copy**. Differs from a **Subscription Crease** in that no ink is missing as a result of the fold.

**SUN SHADOW** - Darker, usually linear area at the edge of some comics stored in stacks. Some portion of the cover was not covered by the comic immediately above it, and it suffered prolonged exposure to light. A serious defect, unlike a **Dust Shadow**, which can sometimes be removed. # CGC

## How the Company Has Grown and How It Works

The world of comic book collecting has grown and matured since the 2000 introduction of CGC (Certified Guaranty Company). Before the founding of CGC comic book transactions were mainly face to face deals with buyers and sellers reviewing the books and negotiating the sales price. The advent of the internet changed all that by opening up new opportunities in that comic books from across the country were as easy to buy as those across the street. But with this new market came risk. Risk of not knowing the seller and risk of buying a book virtually sight unseen except for an online image.

CGC was created to help bring order and stability to comic book sales, and to put an end to the risk and the chaos that accompanied online sales. CGC is the first independent, impartial, third-party comic book grading service. A proven and respected commitment to integrity, accuracy, consistency and impartiality has made CGC the leader in its field, becoming a tool to help people with their buying and selling decisions. The universally accepted grading scale ensures consistency and gives both dealers and collectors a sense of dependability when making purchasing decisions. With CGC certification, a collector knows what he or she is getting based on an accurate and comprehensive description that can be found on the CGC certification label.

If you've ever wondered about how it's done, here's a look at how CGC came together and how a book is certified.

### The Formation of the Company

In January of 2000 CGC was launched under the umbrella of the Certified Collectibles Group, which includes Numismatic Guaranty Corporation (NGC), the largest third-party coin grading company in the world, Numismatic Conservation Services (NCS), the leading authority in numismatic conservation, Paper Money Guaranty (PMG), the world's leading currency certification company and Classic Collectible Services (CCS), the world's premier comic book restoration, restoration removal and pressing company.

The Collectibles Group sought out talented and ethical individuals to grade comic books. Experts needed a history of necessary skills to verify a comic book's authenticity and to detect restoration that can affect its value. To identify these individuals, many of the most respected individuals in the hobby were consulted, and, based on their recommendations a core grading team was selected.

The members of the CGC grading team come from diverse backgrounds, and many were comic book dealers at some time in their careers. Experience in the commercial sector can be an essential ingredient in becoming familiar with market standards. Upon joining CGC, all graders immediately cease all commercial

Team

trading. All CGC employees are prohibited from commercially buying and selling comic books to ensure they remain completely impartial, having no vested interest other than a dedication to serving clients through accurate and consistent grading.

When it was time to develop a uniform grading standard, the hobby's leaders were once again called upon. Everyone agreed that the *Overstreet Guide* was the foundation of this standard, but there were a number of subjective interpretations of its published definitions. It was critical to understand how these guidelines were being applied to the everyday buying and selling of comics. To accomplish this, approximately 50 of the hobby's top experts took part in an extensive grading test. Their grades were averaged and an accurate grading standard reflecting the collective experience of the hobby's most prominent individuals was thus developed. CGC now had the best standard and the best team to apply it.

With the graders in place and the grading scale established, the next step was to develop a tamper-evident holder for the long-term storage and display of certified comics. This proved to be a technical challenge. Exhaustive material tests were conducted to determine that the holders were archival safe. To create a true first line of defense, it was determined that the comic book should be sealed in a soft inner well, then sealed again inside a tamper evident hard plastic case with interlocking ridges to enable compact storage. The CGC certified grade appears on a label sealed inside the holder for an additional level of security.

## Submitting Books

Comic books may be submitted for certification in two ways - they can be submitted by authorized dealers or by Collectors Society members. The Collectors Society is an online community with direct access to certification service from CGC, and submissions can be prepared using online submission forms or paper forms. Both dealers and Collectors Society members typically send their comics to CGC's offices by registered mail or through an insured express company. Submissions are also accepted at many of the Comic Cons that occur around the country throughout the year. CGC will grade on-site at selected shows.

## Receiving the Books

Every day, CGC's Receiving Department opens newly arrived packages and immediately verifies that the number of books in each package matches the number shown on the submitted invoice. Once this is done, a more detailed comparison is made to ensure that their invoice descriptions correspond to the actual comics. This information is entered into a computer, and from this time forth, the comics will be traceable at all stages of the grading process by their invoice number and their line number within that invoice. Each book is checked to see that it is properly prepared for grading in an appropriately sized comic bag with backing board and then is labeled with a numbered barcode containing the pertinent data of invoice number and line item information for quick reading by the computer. Before any grading is performed, the book is exam-

ined by a CGC Restoration Detection Specialist. If any form of restoration work is detected, this information is entered into the computer, making it available to the grading team.

## The Grading Begins

After being examined by a Restoration Detection Specialist, the book is then passed on to the graders. At this stage the comics have been properly sleeved and barcoded for grading and have been separated from their original invoice. This step is taken to ensure that graders do not know whose books they are grading, as a further guarantee of impartiality. The grading process begins by having the book's pages counted and entering into the computer any peculiarities or flaws that may affect a book's grade. Some examples of this would be "Spine Stress Lines Break Color," "Right Top Front Cover Small Crease Breaks Color," "Top Back Cover Tear with Crease" and "Staple Rusted w/Rust Stained Interior." This information is entered into the "Graders Notes" field and a grade is assigned.

When other graders examine the comic, they are not able to see any previous assigned grades, so as to not influence their evaluation. Graders are only able to view previous Graders Notes after determining their own grade. The Grader may then add to the existing commentary if he believes more remarks are in order. The Grading Finalizer is the last person to examine the book. He makes a final restoration check before determining his own grade, at which time he reviews the grades and notes entered by the previous graders. If all grades are in agreement or are very close, he will assign the book's final grade. The book is then forwarded to the Encapsulation Department for sealing. If there is disagreement among the graders, a discussion will ensue until a final determination is made and the book forwarded.

*Each comic book receives a restoration check and the results appear on the label.*

## Encapsulating the Comics

After each comic has been graded and the necessary numbers and text entered into their respective data fields, all the comics on a particular invoice are taken from the Grading Department into the Encapsulation Department. Here, appropriately color-coded labels are printed bearing the proper descriptive text, including each book's grade and identification number. This is critical, as it serves to make each certified comic unique and is also a significant deterrent to counterfeiting CGC's valued product. All of the above information is duplicated in a barcode, which also appears on the comic's label.

The newly-printed labels are stacked in the same se-

quence as the comics to be encapsulated with them, ensuring that each book and its label match one another. The comic is now ready to be fitted inside an archival-quality interior well, which is then sealed within a transparent capsule, along with the book's color-coded label. This is accomplished through a combination of compression and ultrasonic vibration.

## The Comics are Shipped

After encapsulation, all comics are returned briefly to the Grading Department for a quality control inspection. Here, they are examined to make certain that their labels are correct for both the grade and its accompanying descriptive information. Quality control also inspects each book for any flaws in its holder, such as scuffs or nicks. While these are quite rare, CGC is careful to make certain that the comics it certifies are not only accurately graded, but attractively presented as well. When all the comics have been inspected, they're delivered to our Shipping Department for packaging. The comics are counted and their labels checked against the original invoice to make certain that no mistakes have occurred. A Shipping Department employee then verifies the method of transport as selected by the submitter on the invoice and prepares the comics for delivery or they are held in CGC's vault for in-person pick-up by the submitter.

No matter whether the US Postal Service or some private carrier is used, the method of packaging is essentially the same. The encapsulated comics are placed vertically inside sturdy cardboard boxes. In 2005, CGC developed a custom shipping box to enable the highest level of stability during shipping. A copy of the submitter's invoice is included before the box is sealed and heavy tape is used to prevent accidental or unauthorized opening of the box while it's in transit.

The barcode of every comic book is scanned before it is placed into its shipping box. The status of the book is changed to "shipped" in our tracking system, and we retain a record of what books were shipped in which box. This is the final crucial step of our detailed internal tracking system.

## The CGC Label

Comic books certified by CGC bear color-coded labels that have different meanings. Whenever purchasing a CGC-certified comic, be certain to note not only the book's grade but also its label category. A Universal label is denoted by the color blue and indicates that a book was not found to have any qualifying defects or signs of restoration. There is one exception to this policy: At CGC's discretion, comics having a very minor amount of glue and/or color touch-up may still qualify for a Universal label provided that they were produced approximately 1950 or earlier and that such restoration is noted underneath the assigned grade.

As its name implies, the Restored label, identified by its purple color, is used for books found to have restoration work performed on them. The grade assigned is based on the book's appearance, with the restoration noted. The Restoration scale is as follows: **Quality (Aesthetic) Scale** – (Determined by materials used and visual quality of work)

## A (Excellent)

- Material used: rice paper, wheat paste, acrylic or water color, leafcasting
- Color match near perfect, no bleed through
- Piece fill seamless and correct thickness
- No fading, excessive whiteness, ripples, cockling, or ink smudges from cover or interior cleaning
- Book feels natural
- Near perfect staple alignment, or replaced exactly as they were
- Filled edges cut to look natural and even
- Cleaned staples or staples replaced with vintage staples
- Married cover/pages match in size and page quality. Professionally attached

## B (Fine)

- Piece fill obvious upon close inspection, obvious to the touch
- Color touch obvious upon close inspection, or done with materials listed above
- Cover cleaning resulting in slight color fading or excessively white
- Interior cleaning resulting in slight puffiness, cockling, excessively white
- Enlarged staple holes, obviously crooked staples, or backwards staple insertion
- Replaced staples not vintage
- Married cover/pages do not match in size and/or page quality. Professionally attached

## C (Poor)

- Material used: glue, pen, marker, white out, white paper to fill missing pieces
- Piece fill obvious at arm's length
- Bad color matching, use of pen or marker. Bleed through evident
- Cover cleaning resulting in washed out/speckled colors, moderate cockling and/or ripples
- New staple holes created upon reinsertion, or non-comic book staples used
- Trimming of any kind
- Married cover/pages poorly attached with non-professional materials

**Quantity Scale** – (Determined primarily by extent of piece fill and color touch)

The Qualified label is green, and this indicates that one qualifying defect is present on a book. An example of such a qualifying feature would be a missing Marvel Value Stamp that does not affect the story. While such a book technically may grade 1.5, it may appear to grade 9.6. In such instances, assigning a grade of just 1.5 does not fully represent the value of the comic to a collector. Through use of the green Qualified label, a comic buyer is able to make an informed decision as to what he is purchasing in terms of its overall desirability. Because of the complexity involved, green labels are assigned quite seldom and then only when considered absolutely necessary. In addition, comic books that have an unwitnessed signature, and therefore are not eligible for the Signature Series label (see below), get the Qualified label. This is the most common use for the Qualified label. This shows what the grade of the book would have been if the signature was not present.

CGC's Signature Series label is yellow, and this is used when a comic book has been signed or been sketched on by a creator in the presence of a CGC representative, assuring the signature's or sketch's authenticity. Only books that meet CGC's strict criteria for authenticity are eligible for the Signature Series label. In addition to the certified grade, the yellow label includes who signed it and when it was signed. If appropriate, a Signature Series label may state where a book was signed. In 2007, CGC introduced a Signature Series Restored label. Similar to the CGC Signature Series label in color, it is

differentiated by a purple bar across the top. Restoration is noted in the same fashion as on the purple CGC Restored label, and, as with the regular Signature Series label, restored books must be signed in the presence of CGC representatives in order to be eligible for signature authentication.

Conserved Label (Similar to the blue Universal label, but differentiated by a purple bar across the top. Conservation is noted in a similar fashion on the label as on the purple CGC Restored Label.) This label is applied to any comic book with specific repairs done to improve the structural integrity and long-term preservation. These repairs include tear seals, support, staple replacement, piece reattachment and certain kinds of cleaning.

### The Evolution of CGC and CCG

In October of 2003, CGC began to certify comic book related magazines. The certification process and label system for magazines is exactly the same as for comic books. Some examples of comic book related magazines CGC certifies are *MAD Magazine*, *Vampirella*, *Creepy*, *Eerie* and *Famous Monsters of Filmland*.

More recently CGC introduced grading and encapsulation for *Sports Illustrated* and *Playboy* magazines, Movie Lobby Cards and Photographs making us the first independent, impartial, expert third-party grading service for all types of collectibles.

In a move intended to strengthen CGC's commitment to promoting the comic collecting hobby and enhance the collecting experience, CGC's parent company Certified Collectibles Group acquired Classics Incorporated, the world's premier comic book restoration, restoration removal and pressing company, in 2012. Previously located in Dallas, TX, Classics Incorporated relocated to Sarasota, FL to become an independent member of the Certified Collectibles Group under the new name Classic Collectible Services (CCS). Customers who wish to send books in for pressing, restoration or restoration removal are able to send them to CCS and have them transfer directly to CGC for grading — creating a synergistic relationship that saves customers time, shipping and insurance expenses.

## An Interview with Steve Borock

By J.C. Vaughn

*His enthusiasm for comic books made Steve Borock an intriguing figure even before his tenure as the first President and Primary Grader for CGC and Senior Consignment Director for Heritage Auctions. He was profiled as a collector and was noted for his knowledge of stories, creators and the industry's history in addition to his attention to the physical details of comics.*

*Now as President and Primary Grader of Comic Book Certification Service (CBCS) he continues to put his passions to good use, not only at his new company, now entering its second year, but also as a board member of the Hero Initiative, the 501 (c)(3) charity that aids comic book creators in need, and as the auctioneer for the New York Comic Con and C2E2 fundraiser comic art auctions for St. Jude Children's Hospital.*

*Borock has also participated as an advisor for many years to The Overstreet Comic Book Price Guide, The Overstreet Guide To Grading Comics, and The Overstreet Guide to Collecting Comic and Animation Art.*

**Overstreet:** Independent third-party grading of comics is such a part of the industry or hobby now that it's difficult for many to remember how it was initially perceived when it was first introduced. What do you remember about the period in which it started?

**Steve Borock (SB):** The fact is that the majority of people who expressed an opinion thought it wouldn't work, and they weren't

shy about saying so. There were some early proponents, of course, but they were vastly outnumbered. That said, the need for independent grading had become very apparent to a core group. The market was largely stagnant. Key dealers with keen eyes for grading and sterling reputations, enjoyed the trust of their peers, but there was no mechanism for others to build up to that level of consumer or peer confidence.

Internet sales, largely through eBay, opened a whole new frontier, but they also came with a significant number of disputes about the grades. The lack of independent, verifiable grades was an impediment to a larger, healthier market.

**Overstreet:** What sort of turning points do you remember in its evolution?

**SB:** After slow going at first, certification saw its first real victory in an auction staged by Greg Manning Auctions. Watchers were surprised by the prices realized. After that, through 2003-2004, the industry saw a dramatic increase in the number of certified comics available at conventions and from dealers.

Since then, we've seen the evolution of the business, an increase in high end liquidity, and a substantial increase in consumer confidence in the comics they're buying in

person, online or from catalogs. It's no longer only confined by having to know the dealer in question very well. Instead, the consumer can focus on the critical factors: "Is this the comic I'm looking for, is it in the grade I want and is this the price I am willing to pay?" Between 1999, when I helped start CGC and their grading standards, and 2008, when I left, we saw the attitude of the marketplace entirely shift on the subject of certification.

**Overstreet:** What brought you back to grading?

**SB:** When I left grading to work as the Senior Consignment Director at Heritage, I really thought that was it. In the end, though, there's something very compelling about this challenge. Even with all our experience and transparency, we are still the "new kids on the block." We had to do something better just to get in the door. Again, I wouldn't be doing this if I didn't think we had something great to offer the hobby I love.

And speaking of experience, over the last year people have come to know our staff and, I'm pleased to say, that West Stephan, Tim Buildhauser, Daniel Ertle, Joshua St. Amand, Steve Ricketts, Ben Samuels, and Paul Figuerra, among others, are on board. Between just me and these few hobbyists, we have about a combined 300 years of grading, pedigree knowledge, and restoration detection experience from buying and selling as well as "professional" grading. We have all been collecting and reading comic books for many more years than that, but I wanted to put a practical number of years for experience. Once again, it goes back to transparency.

CBCS believes that our graders should have experience in the market place as that's how you truly learn to grade, learning and refining what hobbyists expect a grade should be when buying and selling. As many will tell you, grading is an art, not just a science. The overall look of an unrestored comic must really be factored into

the grade, not just the "technical" aspects.

All of us at CBCS think that most things are better when there's competition. Consumers benefit from having selections to make. There is much competition in the card, paper money, and coin hobbies, why shouldn't our hobby have their choice of real certification companies as well?

**Overstreet:** What sort of reactions did you hear when you announced CBCS?

**SB:** It was overwhelmingly positive. Even people who said they would take a "wait and see" approach, mentioned they would be very happy to submit once we were established and accepted by the collecting community. To me, it's clear that the collecting community has spoken by buying and selling CBCS-certified comic books. Now eBay is adding a CBCS search since there are so many of our books on there. I am happy to say that we have grown from a six-person operation

to a staff of 23 in less than a year! By the time this interview comes out, we hope to have a few more "name" experts on board.

**Overstreet:** The most common question we heard was "Can the market support two grading companies?" We're willing to bet you heard that a lot. Was that the case?

**SB:** Yep. I heard that as well, but this past year showed that the market can indeed, not only support two services, but wants two.

**Overstreet:** You had some hiccups in the early stages and it seemed like you tried to handle them in a pretty transparent way. What were they and how did you deal with them?

**SB:** Transparency is what we promised, so we kept the hobby as informed as well as we possibly could. First there were more submissions than we expected, so West and I were working every day and night, even weekends and holidays. Next we had IT problems with the website, so besides grad-

ing, we were all working to get rid of the glitches. By the time this is published, we should have a new and even better website ([www.CBCScomics.com](http://www.CBCScomics.com)). Then we got in a batch of PETG that was not “virgin,” so we stopped shipping books as we did not want inferior product housing the comics. And finally, trying to hire reliable honest experts was a problem, but I think as we grow, even though we have found the experts, we will need even more in the future.

**Overstreet:** We’ve already mentioned it a few times, but over the years, transparency is a theme you’ve come back to repeatedly in our conversations. You’ve talked about how you addressed it with some of your start-up concerns, and you’ve said that you believe it is a major component of consumer confidence. What are some of the ways you’ve implemented it at CBCS?

**SB:** We feel that transparency is the key to helping the collecting community buy and sell comics. This goes for all buyers and sellers, whether in high profile, public transactions or discreet, private deals. Full-time retailers, weekend show dealers, any seller of comic books benefits when consumer confidence is legitimately high. Likewise, any buyer who can make a purchase with confidence adds to the collective faith in the market. Toward that end, we published our “grading guideline” on our website. We offer scheduled tours of our facility, so that our clients can see where their comics are graded and how they are safely stored, as well as seeing the flow and professionalism of the certification process. As I said when we started, it’s our belief that once someone has paid CBCS to certify his or her comic, it is only fair that a submitter should know how our grading team factored in the defects that resulted in the given grade.

**Overstreet:** When you launched CBCS, you said that based on experience you wanted to do some things differently. What were those things and have you succeeded thus far in doing them differently?

**SB:** Free grading notes have been a game changer for certification. We put each invoice

and corresponding comic number on the front label, so that if you see a CBCS comic for sale online, you can look up the notes on our website to see why CBCS graded the comic the way we did. What’s really cool is that we also put a QR code on the back of the CBCS label. If a collector or seller is at a convention or store, all they have to do is use their smart phone, with a free QR reader download, and the grading notes will pop up on their phone.

The CBCS Verified Signature Program (VSP) has been a huge success. There are so many un-witnessed signatures out there, and many collectors want them authenticated. We came up with a way to do this by working with an independent, professional company called Comic Signature Authentication (CSA). We send CSA a digital photo of the autograph and then their professional signature evaluators go through their process which includes Characteristic Signature Mapping (CSM), a 28-point verification system. CSM is really is state-of-the-art. Once we get confirmation that the signature has passed CSA’s very high standards, we put on that it was signed by the professional on the CBCS label. It’s great to see signatures by great creators from our hobby, particularly those who have passed away, in a CBCS holder and certified as genuine. Of course it’s not only for creators who have passed. Additionally, VSP, we’re able to certify comics signed by celebrities since CSA can authenticate those as well.

Another thing we have done is made a crystal clear, safe holder that does not “dull” the look of a comic book. We also put the top label on the inside of the holder, so that it does not get dirty, can’t be removed, and will not come off the holder from too much handling. The interior sleeve we use is made of virgin PETG and does not need to be changed out after many years because it is archival safe material that lets the comic “breathe.”

Grade screening has become big, as there is no minimum submission and submitters may designate a different grade for each individual book sent in. The two-day

Modern tier has also been huge. Many collectors and sellers have been using that for “hot” modern variants, so that they can get them to market quickly and affordably. The reactions to our online submission form have been solid, as expected. Most folks seem to love our no-fee, easy-to-use, online submission experience.

**Overstreet:** When the first CBCS-certified comics sold last year at Comic-Con International: San Diego, there was a buzz among the dealers and collectors, but buzz doesn’t always translate into acceptance. Has it in this case?

**SB:** It sure has! We had some of the top sellers rushing to get books submitted to us. The top three major auction houses, ComicConnect, Heritage, and Comiclink, are using our service and, from what we are being told, many of the sales have even beat current market prices. We have seen some of the best comics in our hobby come through our doors. Not just that, but the collectors took us by storm by submitting comics in droves. Facebook has been amazing for us! We have a very loyal following on the CBCS comics FB page. The “CBCS Comic Collectors” page on FB, started by one of our fans, has been a really cool place to show off all kinds of comics and talk about them. It has very seasoned collectors and sellers, Overstreet advisors, and novice collectors alike. Those of us at CBCS really enjoy interacting with the folks on that page. There are about 1,100 members at this point. One of the members, Jesse Olson, even puts out a monthly newsletter on the page.

**Overstreet:** Are there other things you are doing – or not doing – to bolster consumer confidence?

**SB:** In addition to our interactions with our customers, we believe it’s also very important how we conduct ourselves when it comes to potential conflicts of interest. Neither CBCS employees – full or part time

– nor any of their family members are allowed to buy and sell CBCS-certified comics or submit comic books for CBCS grading.

Now, of course, just about everyone at CBCS loves comics. They wouldn’t be here otherwise, but if our grades are going to be perceived in a light that is beneficial to everyone, the trust factor has to be there. This is one way we will work to cultivate it. A CBCS employee who collects comics

should not have any need to have a comic certified, as they should be able to purchase a comic for their personal collection using their knowledge of comics or having one of our graders to look that book over for them. Full or part time, they are not allowed to sell ungraded comic books through auction houses or any anonymous sources.

CBCS pre-graders, senior graders and management are not allowed to accept gifts

of any kind, including food, drink or entertainment, from any CBCS submitter or potential submitter. These CBCS employees must pay their own way, at all times, during conventions for items not reimbursed to them by CBCS.

**Overstreet:** In terms of practical, day-to-day operations, what is CBCS doing differently?

**SB:** Even with the overwhelming number of submissions we received our first year, we believe that dependability is a vital factor for those who submit their comics for certification. With that in mind, CBCS will have guaranteed turn times. That’s not to say we guarantee we will be on time all the time, but we believe it is unfair to offer a promise to our clients and not deliver on that promise. In fact, we think we – not the customer – should be penalized if we can’t deliver on our promise. So, if CBCS is more than a few days late shipping comics, our clients will be reimbursed with a certain amount of credit. We do not want to lose money, but fair is fair.

# HALL OF FAME

In the mid-1970s, after the exodus of Jim Steranko, Neal Adams, and others, there was a veritable creative void in mainstream comics. Bursting upon the scene to fill that gap was Paul Gulacy and his work on *Shang-Chi: Master of Kung Fu*. Gulacy's broke Marvel's "House Style" mold. Influenced by Steranko, Gulacy's art was slick, detailed, and eye-catching. But it was his magnificent storytelling ability that left its indelible mark. Heavily impacted by movies, editor Archie Goodwin described Gulacy's work as "film on paper." Movie director Quentin Tarantino said, "My favorite comic when it came out was *Master of Kung Fu*."

After *Master of Kung Fu*, Gulacy teamed with writer Don McGregor to produce the graphic novel, *Sabre*. He would go on to work on such pop culture icons as James Bond, Batman, Terminator, Star Wars, G.I. Joe, along with a host of independent titles. He has always found ways to push the medium's creative limits.

The first word that comes to mind when one thinks of Don McGregor's writing is "humanity." Throw in "honesty" and "integrity," and a passion for the romantic and sometimes tragic nature of heroism, and you have a quintessentially poignant Don McGregor script. He started his comics career writing for Warren's *Creepy*, *Eerie*, and *Vampirella* before joining Marvel in the early 1970s. His stories featuring Killraven, the Black Panther, and Luke Cage remain examples of the best that comics can achieve. Often at odds with the editorial restraints of the era, he became a pioneer in creators' rights, and with artist Paul Gulacy created *Sabre*, the first graphic novel specifically published for the then-new comic book specialty store market in 1978. He followed with *Detectives, Inc.*, drawn by Marshall Rogers and, later, by Gene Colan, and *Ragamuffins* with Colan, all at Eclipse Comics. At DC, Don again teamed with Colan on *Nathaniel Dusk*. He also created the popular *Lady Rawhide* as a spin-off from the *Zorro* series he wrote for Topps in the 1990s, and then scripted Zorro's newspaper strip adventures, with artist Tom Yeates. Much of his work remains in print.

Alex Schomburg (Alejandro Schomburg y Rosa) was born May 10, 1905 in Aguadilla, Puerto Rico, and moved to New York City in the 1920s, where he began working as a commercial artist for the National Screen Service. In the 1930s he freelanced for Better Publications producing line art for their line of pulps, but he is remembered best for his brilliant and unique comic book covers that he produced for Timely Comics which included Captain America, Human Torch, Sub-Mariner and their other heroes, many of them in World War II images. He also produced covers for Nedor Comics like *Exciting Comics*, *The Black Terror*, *Fighting Yank*, *Best Comics*, *Thrilling Comics*, *Startling Comics*, *Wonder Comics*, and others. In addition to traditional line work, he developed a completely different style with an airbrush and signed those works "Xela" ("Alex" backwards). He left comics for magazines in the 1950s, but produced covers for *The Overstreet Comic Book Price Guide* #10 and #21, and accepted fan commissions at shows later in life. Schomburg passed away on April 7, 1998.

Starting with his stint at *Amazing Heroes*, writer Mark Waid has brought a strong, distinctive voice to both the comics he writes and the issues on which he focuses. At DC he edited a number of titles including *Gotham by Gaslight*, the first “Elseworlds” issue, before starting as a freelancer with *The Comet* for their Impact line. He firmly established himself with fans for his eight-year run on *The Flash*, succeeding where other talented writers had failed to have Wally West actually supplant Barry Allen as The Flash in the minds of many fans. His work with artist Ron Garney at Marvel on *Captain America* is widely regarded as the best of that era. Over the years his work has included *Impulse*, *Kingdome Come*, *JLA: Heaven’s Ladder*, *Ruse*, *Fantastic Four*, *Superman: Birthright*, *Legion of Super-Heroes*, *Amazing Spider-Man*, *Indestructible Hulk*, *S.H.I.E.L.D.*, and *Daredevil*, launching the digital comics site Thrillbent, and creator-owned titles such as *Empire*, *Irredeemable* and *Incorruptible*. He is also co-owns The Aw Yeah Comics chain.

# The Origin of the **Disney** Periodical

by Richard D. Olson, Ph.D

Following the successful wide debut of Mickey Mouse in *Steamboat Willie* on November 18, 1928 in New York, and throughout the country in 1929, America went Mouse crazy. The first Mickey Mouse newspaper comic strip appeared January 13, 1930, and the stage was set for all of the merchandising to follow. One of the first items to take advantage of the craze were the Mickey Mouse dolls, which were made by Charlotte Clark under an agreement with Walt Disney. They were sold in Southern California stores by early 1930 and demand quickly outpaced supply.

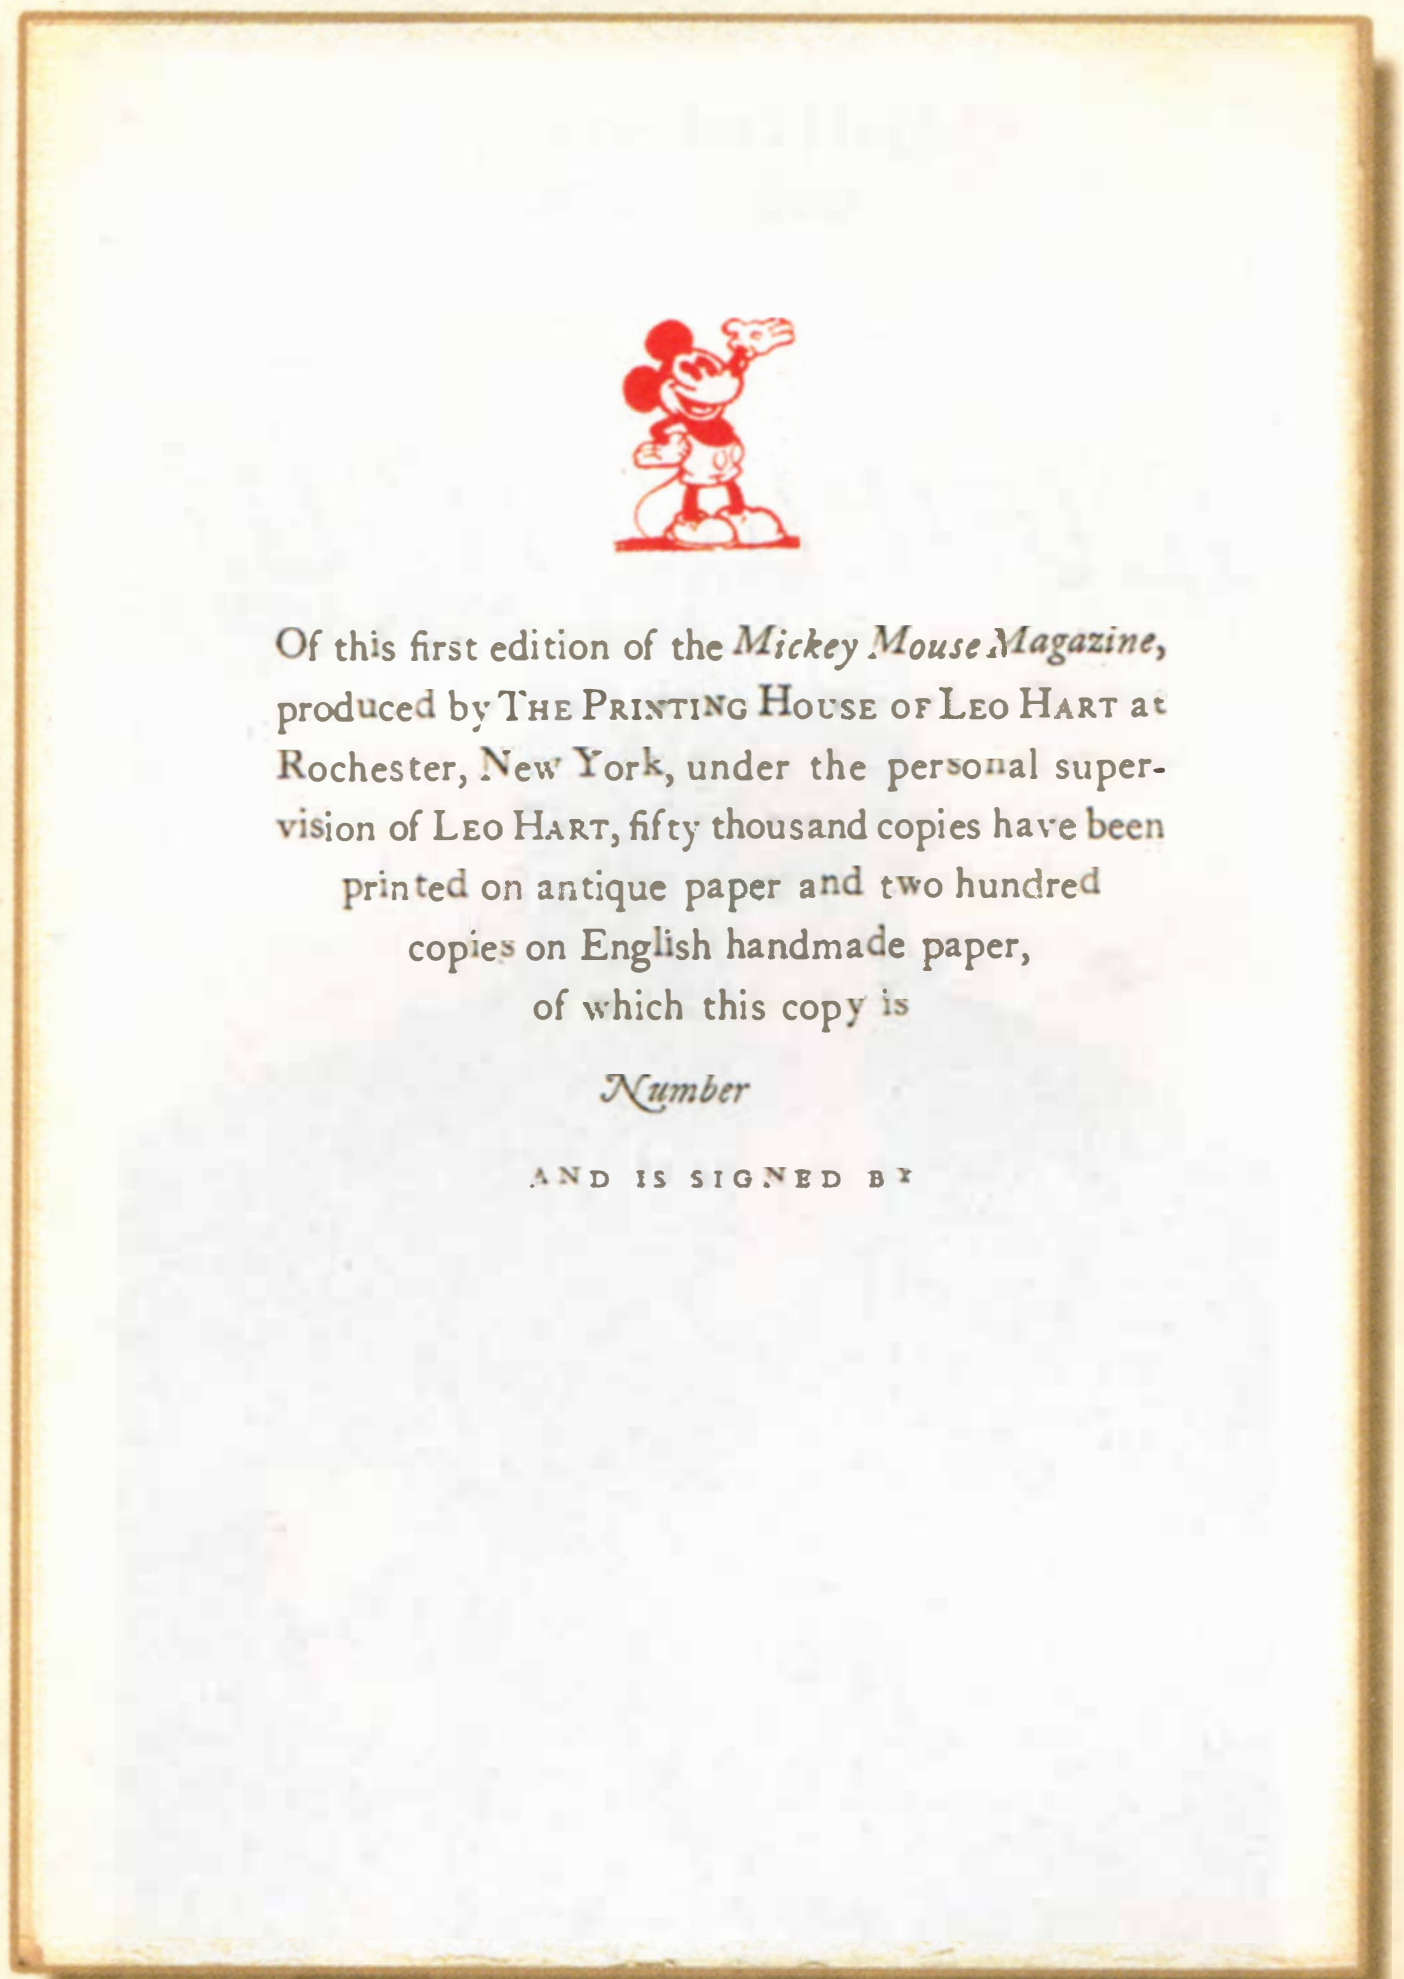

Herman "Kay" Kamen was put in charge of licensing for Disney in 1932 and, based on the popularity of the comic strip, saw the opportunity for a magazine that could carry ads for the new *Mickey Mouse Magazine* that would be sold through leading stores and the-

aters. He asked Leo Hart of Rochester, NY, to have a copy of a 16-page, small magazine produced by his Printing House company with a five cent price tag on the cover. Hart printed a deluxe copy on English handmade paper and bound it in hard covers with a colophon (a page naming the publisher, location, and number of copies printed) that stated there would be 50,000 copies printed on antique paper and 200 copies printed on English handmade paper, numbered, and signed.

Kamen approved the printing of an unknown number of the projected 50,000 copy print run with no changes, but apparently decided against having Hart make the 200 deluxe copies that were to be numbered and signed. The latter comment is based on the fact that to the best of my knowledge, not a single copy of the numbered and signed deluxe copies has ever surfaced.

The front cover of the hard bound Publisher's Copy of the first issue of the Series 1 *Mickey Mouse Magazine*.

The colophon at the end of bound volume of the Publisher's Copy.

Thus the copy that Hart made for himself and had bound is unique; i.e., the only known copy. Its validity is supported by the fact that this copy was obtained from Hart's widow, who verified its history.

I am pleased to now be able to share that copy with the hobby. It was obtained recently from the individual who purchased it from Hart's widow. It differs from the distribution publication in several ways. It was printed on English handmade paper, hard bound with a drawing of Mickey outlined in black but filled in with now faded gold paint on the cover, the magazine title on the spine and on an interior title page, not having all of the interior pages cut at the top edge, being larger at 5 1/2" x 8" (with the binding being 1/4" greater in each direction) due to the special paper, and containing a colophon. Otherwise, it is virtually identical to the January, 1933, Vol. 1, No. 1, issue that Kamen sold to merchants with the exception of the back cover ad. In fact, the bound copy has an ad for subscriptions to the *Mickey Mouse Magazine* through Gimbels' department store in New York City on the back cover while my reference copy of the published first issue has

a similar ad for Meekins, Packard, & Wheat, Inc. in Springfield, Massachusetts.

For research purposes, I would appreciate hearing from anyone with a copy of the first issue about information on what company sponsored the ad on the back cover of their issue. Please email me at: richardolson@hughes.net.

The magazine was 5 1/4" x 7 1/4", contained 16 pages, and was printed in red and black on white paper. It is not known how many copies were actually printed of the regular issue, or how many advertisers bought space on the back cover, but it is very rare today. Customers balked at paying for the small magazine, and after two issues, the five cents price was removed and it became a giveaway. The magazine folded after nine issues, but the bound Publisher's Copy remains the genealogical origin of all Disney magazines and comic books.

*Richard D. Olson, Ph.D, is a longtime comics historian and Overstreet Advisor. He has contributed significant information to the Guide many times.*

# TRULY CREEPY

## A PERSONAL REFLECTION by DAN BRAUN

When I hear the word “creepy,” I only think of one thing: Jim Warren’s *Creepy*. Yes, I’m comic book-centric; yes, I have a personal history with the title, but I think that Warren’s *Creepy*, like Bill Gaines’ *MAD*, has gained the right to own the definition of the word.

*Creepy* magazine has always represented something to me that transcended its status as a pulp comic magazine from the ‘60s and ‘70s into something greater. I can’t be objective here. I spent seven years of my life negotiating with Mr. Warren for the ownership of the brand and another seven years editing, writing and overseeing the re-launch of the brand.

Just so we’re clear, I like *Creepy* a lot.

*Creepy* was birthed by Warren Publishing in 1964, and was a comic book in magazine format; racked with the magazines on the newsstands of America (and France, Spain, Latin America, Brazil, and Sweden) where you would see *Creepy* only inches from *Time*, *Newsweek* and *Playboy*. That’s why people who I run across who have no knowledge of comic books whatsoever know the *Creepy* logo.

Why was there a *Creepy* comic magazine?

The First Well Known Fact: in 1954, psychologist Fredric Wertham wrote a book called *Seduction of the Innocent* that led to a national furor against the dangers of comic books corrupting the morals of youth. A McCarthy-esque senator named Estes Kefauver ran with the ball and forced all the comic companies to self-censor themselves with the “Comics Code Authority” that neutered not just horror comics, but all comics. In the comic book collecting world, comics are now forever defined as either “pre-Code” or “post-Code.”

Second Well Known Fact: the company hardest hit by this code was a little outfit called Entertaining Comics, better known as EC, which published a delicious menu of blood-soaked titles such as *Tales from the Crypt* and *Haunt of Fear* that genuinely entertained the kiddies and informed a generation of cool ghouls such as Lucas,

Spielberg, Corman, and Romero (that’s George, not Cesar) with a straight shot of 100 proof horror.

Post Code: EC was shut down, and put all their chips on red; they took their best selling humor title, a little comic book called *MAD* and changed it to magazine format to avoid the dreaded Comic Code. And the rest, as they say, is history. But something else was brewing down in Philly...

CUT: fade camera up to Philadelphia, PA, 1957. A young maverick magazine publisher named Jim Warren is following the path of his idol, Hugh Hefner with his soft core title, *After Hours*, a mild *Playboy* imitation. Warren was tried in local courts for pornography, but that hardly slowed him down. It was on *After Hours* where Jim met the soon-to-be-legendary Forrest Ackerman.

In 1958 he partnered with Ackerman and published *Famous Monsters of Filmland*, a landmark horror title and instant success. Warren just happened to be one of those cool little ghouls who loved EC horror comics, and he wanted to bring back the glory days of EC under his own imprint, Warren Publishing. And he remembered what Gaines had done to subvert the comic code with the magazine format.

Warren, with editor Russ Jones, moved forward to “put the band back together.” The all-stars of the EC “bullpen” were Frank Frazetta, Joe Orlando, Wally Wood, John Severin, Reed Crandall, Johnny Craig, Al Williamson, Jack Davis, and secret weapon Angelo Torres. Warren and Jones wanted them all. Through Jones and assistant editor Archie Goodwin, they shot the moon and got virtually the whole gang back. Warren went out with *Creepy* #1 in late 1964 with one of the most iconic covers of all time drawn by EC stalwart Jack Davis (who never drew another horror comic again after *Creepy* #1).

Introducing the tales was Warren’s version of the EC crypt keeper, a nasty looking gent named Uncle Creepy. Uncle Creepy was based on John Barrymore, with his portly Cousin Eerie based on Charles Laughton.

The first try by Jack Davis  
at designing Uncle Creepy  
and the final iconic look  
from the cover of the first  
issue of Creepy, also by  
Davis.

It was a coup. After 10 years of not-really-scary horror titles like *House of Mystery*, *House of Secrets*, *Tales of the Mysterious Traveler*, *Forbidden Worlds* and others, *Creepy* ushered in a new era of comic book terror.

With the run of *Creepy* #1-17 and *Eerie* #1-13, most of which had Frank Frazetta covers, a new era in horror began. These Frazetta covers were truly terrifying, not "1965 scary" but all-time scary, and are still startling today.

*Creepy* hit a chord, a deep chord that had not been touched in a long time and the audience knew they had something special. The thing sold, and sold. Concurrently, horror was entering the mainstream with *Night of the Living Dead*, *The Twilight Zone*, *Outer Limits* and *Night Gallery*; anthology horror was hot. *Creepy*'s sister magazine, *Eerie*, arrived in 1966, followed by *Blazing Combat* and finally *Vampirella*.

Inside *Creepy* was the work of many talented artists and writers, (and a fairly unsung letterer, Ben Oda who created the iconic *Creepy* and *Eerie* logos), but the maestro was editor and writer Archie Goodwin.

Russ Jones left after issue #1 and Goodwin took the reins, editing and writing almost every great story and attracting the best new talent such as Neal Adams, Dan Adkins, Gray Morrow, Alex Toth and Steve Ditko. Never since the EC days had an editor been so closely linked with the quality and personality of a title, to the extent that when he suddenly exited in 1967, the quality of the books dropped to a level that even now it is referred to by comic historians as Warren's dark ages.

But what was that certain something that made the golden era of *Creepy* so memorable, so timeless, so damn fantastic?

When I was a kid I remember as clear as day the first time I saw *Creepy*. It was 1968 on a newsstand on Broadway and 98th Street and it stopped me in my tracks. I was seven years old. *Creepy* opened up a whole terrifying world I knew nothing about. The combination of cartoony dripping letters and ultra realistic painting was so different than the comics I was buying. It's a comic book? Wait, no, it's not a comic book; it's way scarier than any comic book I've ever seen. It's bigger than a comic book and it cost 25 cents, twice the price of an average comic.

This thing felt *illicit*!

Just by the cover you knew there were things inside that you absolutely were not meant to see. So there wasn't any one singular thing that made *Creepy* great - it was the whole bone-chilling package.

The magazine lasted a long time and went through many creative phases too complex to cover in detail here. It was published on American and international newsstands for almost 20 years. By rough estimations with pass along rates and other media metrics, the title was read by over 20 million people over that time. That would define it as a cultural institution.

But after the publishing ceased at issue #145, it was Jim Warren who was rumored to be in an institution (in fact, he was not). The title was sold in a bankruptcy case in 1983 and the man himself virtually disappeared,

Howard Hughes style. Years went by and nothing *Creepy* appeared on the horizon.

In 1985, a *Creepy* #146 appeared, out of nowhere, and then disappeared just as quickly. Stabs were made at a rebirth but nothing stuck. *Vampirella*, however, became a successful franchise at Harris Publishing, the company that acquired the titles out of bankruptcy. Meanwhile, Warren was seemingly frozen in a block of ice like Captain America waiting to be discovered by the Avengers.

In 1997, Warren unfroze, and immediately lay claim to his birthright. Filing a lawsuit against Harris Publishing to re-gain ownership of *Creepy*, *Eerie* and *Vampirella*, he claimed he was basically unaware of the sale and that it wasn't properly recorded; the lawsuit went on for years. Eventually he did regain rights to *Creepy* and *Eerie*, but *Vampirella* stayed with Harris.

But there was another entity laying frozen in the tundra, like *The Thing*, and that was me and my little gang. In 1999, I was just naive and ambitious enough to think I could get in the ring with Jim Warren. Foolish me. After meeting the man, I recalibrated. Seven years and many, many rounds later, my brother, two friends and I "bought" *Creepy* and *Eerie*. I put "bought" in quotes because I don't think anyone can own *Creepy* and *Eerie*; they can take temporary custody, and that's what we've done.

Since then, *Creepy* has been successfully re-launched at Dark Horse Comics as an Eisner Award-winning archival series here and abroad. We have published chronological hardcover volumes of both *Creepy* and *Eerie*, as well as artist- and story-centric collections as well.

We also added new quarterly *Creepy* and *Eerie* comic books with myself and Mike Richardson at the helm. It's now been eight years and we continue the search for the new Frazetta, the new Wood, the new Crandall. We didn't need to find the new Angelo Torres, though. Angelo is still in top form and contributed to *Creepy Comics* with my first story in *Creepy* #1's "Hell

Hound Blues" (2008).

So what's old is new and what's new is still terrifying. Watch the news for Creepy TV - we are bringing *Creepy* to television with director, and ex-comic book artist (bet you didn't know that) Chris Columbus and a fabled studio; we are sure the results will be legendary.

*Dan Braun is the Co-President of Submarine, a NYC film sales and production company specializing in independent feature and documentary films. Dan is a writer and consulting editor on Dark Horse's Creepy and Eerie comics and archival series which won an Eisner Award for best archival comic book series in 2009.*

# THE FLASH

## AT 75

Whether you refer to him as the Crimson Comet, Scarlet Speedster or any number of his other nicknames, the Flash has sped through the minds of comic readers everywhere as one of DC's greatest heroes. There have been four different Flashes over the years, including Barry Allen, Wally West, and Bart Allen, but the original Flash – the one celebrating his 75th anniversary this year – was Jay Garrick.

Jay Garrick made his debut in *Flash Comics* #1, which hit the stands in January of 1940. Created by writer Gardner Fox and artist Harry Lampert, Jay gained his abilities as the Flash after accidentally inhaling vapors in his college laboratory. Jay soon discovers that he can run at superhuman speeds and dons a winged helmet (reminiscent of the Roman god Mercury) he inherited from his father in his transformation into the crime-fighting Flash.

Jay quickly gained popularity and was one of the best-known superheroes during the Golden Age; he was a founding member of the Justice Society of America and could be seen fighting crime with the team as well as alone. He also formed a close friendship with the Green Lantern of his time, Alan Scott (this would be a trend for Flashes that followed Jay as well).

Though superhero comics reigned supreme during the 1940s, after the conclusion of World War II, they saw a steep decline in popularity. The three comics that Jay Garrick regularly appeared in – *All-Flash*, *Flash Comics*, and *All Star Comics* – were all canceled by 1951. Jay himself wouldn't appear again for a decade, and he never again had his own solo series.

Though Jay Garrick was absent, another Flash soon appeared on the pages of DC comics: Barry Allen. Of the Flashes, Barry is probably the best-known, as he originated the all-over red suit most commonly associated with the hero. Barry, much like Jay, got his powers in a lab accident – a lightning bolt shattered shelves full of chemicals that spilled on Barry, giving him the super-speed abilities. In Barry's universe, Jay Garrick exists only as a comic book hero; Barry calls himself the Flash

because he looked up to the comic book character of his youth. Barry had some of the most expanded abilities of any of the Flashes, as he could not only simply run fast, but also invented the “cosmic treadmill” which allowed him to travel through time.

Despite Barry's popularity, the character was killed in 1985's *Crisis on Infinite Earths* event. Barry had dealt with significant turmoil during the early 1980s. His wife Iris was killed by Professor Zoom and Barry killed Zoom in an attempt to prevent the same thing from happening to his new fiancée – Barry was then placed on trial and found guilty for the murder of Zoom. In *Crisis*, he's captured by the Anti-Monitor due to his time-traveling abilities, pulled into a speed vortex, and killed. However, after his death, it's implied that his soul lives on in the Speed Force (the source of speedsters' powers) itself.

Barry was replaced in his role of the Flash by his nephew and sidekick, the original Kid Flash, Wally West. Wally wasn't nearly as powerful as his predecessor, as he lacked the ability to time-travel and could only travel slightly faster than the speed of sound (while Barry could travel at the speed of light – significantly faster). Wally would be the Flash for the 20 years following *Crisis*, until Barry was brought back in *The Flash: Rebirth*. The fourth flash, Bart Allen, was originally introduced as the character known as Impulse. Bart was the grandson of Barry and the cousin of Wally, and became the second Kid Flash when Wally took on the Flash mantle. But after 2006's *Infinite Crisis*, Bart took over the Flash name himself.

All four Flashes have appeared across television and film over the years, though Barry has been the most popular subject – he was the star of the 1990 television series as well as the more recent show that began running in 2014. No matter which Flash it is or what medium he's on, it's clear that DC's favorite speedster will be running into history for at least another 75 years or so.

# THE SHIELD at 75

While the character has had his ebbs and flows in popularity over the decades, and while others – specifically one other – gets the lions share of the fan awareness, no one should ever forget that The Shield was the first of the patriotic superheroes. First published in the pages of the January 1940 cover-dated *Pep Comics* #1 from MLJ, The Shield hit the stands two years before America's entry into World War II. The simmering tensions in Europe and Asia had already erupted into full-fledged conflict, but in Amer-

ica there was still an isolationist movement.

The character Joe Higgins, whose origin would be detailed in *Shield-Wizard Comics* #1 that summer, was the son of chemist Tom Higgins, who was developing a serum for super strength. The Nazis were, of course, after the secret formula. Tom was killed in an explosion (or Tom is blamed), leaving the serum incomplete. Joe eventually completes the serum, becomes an FBI Agent (with his true identity known only to FBI Director J. Edgar Hoover), clears his father's name, and fully joins the war effort and the fight against crime.

It would be impossible to suggest that The Shield was the most successful of the patriotic superheroes from the World War II era, but he actually did win his first head-to-head battle with Captain America. If you've ever wondered why Cap got the round shield in his second issue, it was to avoid Timely losing a lawsuit to MLJ since the original triangular shield looked very much like The Shield's uniform.

Initially, though, the character was very successful, appearing in *Shield-Wizard* and *Top-Notch Comics* in addition to *Pep*. He even spawned a fan club, the Shield G-Man Club, and items from the club kit remain highly collectible today.

The Shield's initial slide from the public view wasn't due so much to a particular decline in popularity as it was to the tremendous success of another MLJ character, Archie Andrews. Soon after Archie's appearance in *Pep Comics* #22, the company had a major hit and a new identity on its hands. Eventually, MLJ would become Archie Comic Publications.

While the Shield languished, though, the character wasn't entirely forgotten. It has been revived and revised several times over the years, some with more success than others.

Among the notable revivals, June 1959 saw *The Double Life of Private Strong* by Joe Simon and Jack Kirby (who later reclaimed ownership of their version of the character)

Lancelot Strong, in 1965's *Fly-Man* #31 (written by Jerry Siegel) introduced Bill Higgins, son of the original Shield, *Legend of The Shield* in 1991 brought readers Lt. Michael Barnes as the new Shield for DC's Impact line, and in 2009 DC's Red Circle line featured Lt. Joseph Higgins as the title character.

Archie took the characters back over in 2012 with their *New Crusaders* mini-line, and more recently recommitted to *The Shield* as the third of their launch titles for their rechristened Dark Circle imprint in 2015. The latest Shield isn't Joe Higgins, though – a young woman has taken the title for the first time.

Some years back I was honored to write the introduction to a volume collecting early stories of The Shield. While certainly he's been overshadowed, the character's contributions should not be forgotten. It will be interesting to see where Archie goes with their new version.

# THE SPIRIT at 75

There have been a number of heroes and colorful characters to grace the newspaper “funny pages” over the last hundred years or so, but few have had quite the impact or longevity as *The Spirit*.

The legendary masked vigilante began his crusades on the streets of Central City on June 2, 1940, when the original strip was published in – appropriately – the Register and Tribune Syndicate’s “Spirit Section,” a Sunday supplement distributed to 20 newspapers. The top of each “Spirit Section” was printed with the newspaper’s name and logo, making for a wide variety for collectors to pick at. These sections usually included a seven-page, action-packed *Spirit* tale as well as smaller stories – *Mr. Mystic* and *Lady Luck*, among others.

The *Spirit* himself was created by Will Eisner; Eisner created the *Spirit* in response to a request by Everett M. “Busy” Arnold, the publisher of the Quality Comics line, who wanted to get in on the booming comic business at the time.

The *Spirit* was the alter-ego of the detective Denny Colt, who was presumed dead in the first three pages of the original story. What actually happened, though, is that Colt was put into a state of suspended animation by the villainous Dr. Cobra.

So when he woke up, he took on the hero persona of the *Spirit* while establishing a base of operations under the plot where he was allegedly buried. From then on, he took on the lines of The Octopus and other villains, plus avoided the sultry advances of femme fatale P’Gell.

Despite the fact that he wore nothing but a flimsy domino mask to conceal his original identity, no one recognized him as the supposedly deceased detective – something the comics played up often. *The Spirit* was notable for exploring (and expanding) the *noir* genre, as well as highlighting Eisner’s artwork. Rather than settling on a consistent logo for his books, he instead incorporated the title of the book into the story itself.

The original *Spirit* comics – both the “Spirit Section” and the book version that debuted in ’44 – ran until 1952, but that’s hardly the last time that readers saw him. In the 1960s, Harvey Comics reprinted several of the character’s best tales in a pair of oversized issues, and Warren Publishing also went the reprinting route in the 1970s. However, in both of these instances, Eisner added additional, new material. The Octopus’ backstory was finally given in one of the Harvey reprints in “Octopus: The Life Story of the King of Crime.” And the stories “The Capistrano Jewels” and “The Invader” were published in the Warren reprints. Though the Warren Publishing

reprints only lasted 17 issues, when Denis Kitchen’s Krupp Comic Works took over the title, it ran through #41 in 1983; they then switched to comic book format under Kitchen’s Kitchen Sink Press and ran from a new #1 up to #87 in 1992.

It wouldn’t be until the 1990s that *The Spirit* saw any extensive new material, where

Kitchen Sink Publications produced a series of original Spirit stories; this ran from 1996 to 1997 and featured contributions from the likes of Alan Moore and Dave Gibbons, Neil Gaiman, and many others.

Despite saying on numerous occasions, “Whenever I get the urge to do a Spirit story, I generally lie down until it goes away,” Eisner had one last tale to tell about the vigilante, which ran in the sixth issue of *The Amazing Adventures of the Escapist* by Dark Horse comics. The story, featuring the Escapist meeting the Spirit, released in 2005, shortly after Eisner’s death. While Eisner became a legendary name in the comic industry for his numerous other contributions – in writing, illustration, and his business sense – it seems only appropriate that a character that helped define his early career would again appear amongst his last work.

Later, the Spirit was actually introduced into the DC Universe in 2007, in the one-shot *Batman/The Spirit*. This book had these heroes team up against

their villains, who had already done the same. *Batman/The Spirit* appropriately took home the award named for the vigilante’s creator, the Eisner Award for Best Single Issue, that year. This book then allowed the Spirit to be spun off into his own adventures within the DC Universe, which began the month after the crossover and would run for 32 issues.

During the Spirit’s time with DC, a film based on his classic newspaper adventures was released, in December of 2008. The hero was portrayed by Gabriel Macht, with Samuel L. Jackson as the Octopus. Though the film bombed at the box office and only received mixed reviews at best, it kept the character in the public eye.

Most recently, Denny Colt has been resurrected again by Dynamite Entertainment. The series, written by Matt Wagner, begins with the story “Who Killed the Spirit?” and shows that no matter how many years have passed, the Spirit will linger on.

# Captain Action

at **50**

by **Michael Eury**

***Who is this Captain Action depicted on this edition's phenomenal Paul Gulacy cover? Is he a super-hero? A spy? A master of disguise? Or is he a she? Or a cat?***

***Captain Action's history is as jagged as the blade on his lightning sword. Yet over the course of half a century, Captain Action has withstood almost as many reboots as there are plastic boots in his Ideal Toys wardrobe and has become an enduring pop-culture legend.***

### **A MAGICAL BEGINNING**

Captain Action started as a 12-inch poseable action figure for boys, introduced by the Ideal Toy Company at the 1966 Toy Fair. Two years earlier, Hasbro rolled out G.I. Joe, an articulated action figure billed as "America's movable fighting man." G.I. Joe's creators, licensing impresario Stan Weston and toy exec Don Levine, appropriated from Mattel's popular Barbie line the "razor/razor blade" marketing approach: sell a kid the "razor" (the primary figure) and she/he will be obliged to buy the "razor blades" (clothing and accessories). Through an expanding array of uniforms, G.I. Joe could become a sailor, a Marine, a frogman—even an astronaut!—and Hasbro dropped a decisive salvo onto war-toy competitors.

Weston, a fan of comics and pulps, was convinced that lightning could strike twice with this "razor/razor blade" concept for boys. He conceived a generic super-hero that could "become" different commercially popular champions with the mere change of a costume—or, from Weston's thinking, via an imagined magical transformation, hence the character's name: Captain Magic. In 1965 Weston proposed the idea to Ideal Toys' Larry Reiner. Reiner was reluctant, fearing that Captain Magic's own identity would be lost behind the rubber masks of the better-known characters' faces, but conceded to Weston's enthusiasm. Ideal designed the hero with military implications including the rank of "Captain" so as not to stray too far from G.I. Joe, but rebranded him with a name more reflective of a super-hero: Captain Action. Meanwhile, Weston recruited multiple licensors' properties to the initial line.

### **LIKE A QUICKSILVER OF LIGHTNING**

And thus, in early 1966, the American public met Captain Action, "the Amazing 9-in-1 Super Hero" who could become Superman,

Batman, Aquaman, Captain America, Sgt. Fury, the Phantom, Flash Gordon, Lone Ranger, and Steve Canyon. The Captain Action figure was sold separately in a decorative box sporting a painted image (by an unknown artist) of the hero brandishing his lightning sword and ray gun. *Hawkman* illustrator Murphy Anderson, whose slick artwork epitomized DC Comics' house style at the time, was contracted by Ideal to produce the package art for most of Captain Action's super-hero uniforms. The first Captain Action artist in the minds of most DC readers, however, was *Lois Lane's* Kurt Schaffenberger, who drew one-page Captain Action house ads appearing in DC titles.

The debut of Captain Action could not have been more fortuitously timed: the overnight success of TV's *Batman* series starring Adam West torch-lit an international super-hero craze. Ideal's Captain Action enjoyed a modestly successful first year, and product expansion briskly followed: several major department stores offered exclusive playsets, and in 1967 Ideal unleashed more costumes (Spider-Man, Green Hornet, and Tonto), a kid sidekick (Action Boy, with his boomerang and pet panther, Khem), Action Boy uniforms (Robin, Superboy, and Aqualad), and a Barbie-like line of "Super Queens" (Supergirl, Batgirl, Wonder Woman, and Mera) marketed at girls. The first Captain Action comic book, a 32-page illustrated catalog drawn by Chic Stone, was also released in 1967 and was inserted into Captain Action products.

While Ideal aggressively pushed Captain Action's and Action Boy's famous alter egos, they also exploited Captain Action as a hero in his own right, releasing a vehicle (the Silver Streak) and accessory packs (including the Directional Communicator). Ideal licensed Captain Action to other vendors for products including an Aurora model kit, a Ben Cooper Halloween costume, and a card game promotion with General Mills' Kool-Pops.

During the product's third year, 1968, no new licensed super-hero costumes were produced. Instead Ideal continued to push Captain Action as *their* super-hero by introducing his nemesis, Dr. Evil, a blue-skinned "sinister invader of Earth" with an exposed brain—and groovy threads (Nehru jacket, sandals, and a medallion). Also released that year was a second-issue Action Boy, clad in a spacesuit. By this time, the *Batman*-inspired super-hero fad was stalling, and so were Captain Action's sales. Revitalization attempts had fizzled, including a giveaway parachute with Captain Action figures and the addition of "Video-Matic" flasher rings to costumes. Ideal discontinued the line at the end of 1968. It's unlikely that a single factor can be blamed for the toy's demise, but former Ideal salesman Larry O'Daly believed that the figure's dual function as a super-hero *and* a super-hero masquerader tended to "fragment the imagery of the basic character."

## CAPTAIN ACTION AT DC COMICS

While American boys were playing with Cap-

tain Action, Jim Shooter, a teenager just a few years older than Ideal's target audience, was writing Superman and Legion of Super-Heroes stories for DC Comics' infamously tyrannical editor, Mort Weisinger. In 1968 Shooter was thrilled when he landed the assignment to produce a "new" superhero book for Weisinger ... until Mort rattled off the feature's prerequisites: "His name is Captain Action. He has a sidekick named Action Boy, a three-wheeled car, a secret cave..." Nonetheless, Shooter dove into the assignment, a DC comic book starring Captain Action, the result of a licensing agreement with Ideal.

The colorful but vague concept of Ideal's Captain Action presented a super-hero that could take on the guises—and powers—of other super-heroes. That's great for playtime, but improbable for comic-book storytelling. Shooter concocted a backstory: DC's Captain Action was actually archaeologist Clive Arno, who, along with his duplicitous colleague Krellik, unearthed ancient coins imbued with the abilities of the gods of myth. The altruistic Arno wields the tokens as the superhero Captain Action, while Krellik, empowered by the coin of the

god of evil, Chernobog (Loki), unleashes a crime spree. The amazing Wally Wood was tapped by Weisinger to launch the series, working over Shooter's layouts. *Captain Action* #1, cover-dated Oct.-Nov. 1968, featured a guest-shot by Superman and the introduction of Clive Arno's son Carl as Action Boy.

Yet the series didn't end there: DC had contracted with Ideal for a five-issue run, the company's first toy tie-in. Longtime *Green Lantern* artist Gil Kane stepped in as penciler with issue #2, with Shooter scripting and Wood remaining on as inker. This issue concluded the Krellik storyline.

By the time the third issue of the bimonthly series went into production in late 1968, Weisinger passed off *Captain Action* to editor Julius Schwartz. Schwartz offered Gil Kane the opportunity to write as well as draw *Captain Action*, which Gil relished. Kane brought Ideal Toys' Dr. Evil into comics with issues #3 and 4. Issue #5 pitted Captain Action and Action Boy against a persuasive demagogue. Despite dynamic storytelling and gorgeous artwork, DC's *Captain Action* premiered too late to capitalize upon the toy line's momentum and was not renewed. Kane confessed to me in 1998, "It broke my heart when it ended cold."

## FALSE STARTS

Yet Captain Action did not fade from fans' memories. He was included in E. Nelson Bridwell's "Checklist of DC Super-Heroes" in 1971's *DC 100-Page Super Spectacular* #6, and occasionally a *Brave and the Bold* reader would appeal for a Batman/Captain Action team-up. In the early 1980s, writer Mike Tiefenbacher unsuccessfully pitched a Clive Arno revival for the "Whatever Happened To...?" backup series in *DC Comics Presents*, proposing that since DC no longer had the rights to the Captain Action name, Arno and son would be rechristened Captain Triumph and Javelin. However, outside of a wistful review of DC's Silver Age series in Fantagraphics' *Amazing Heroes* #9 in early 1982, *Captain Action* remained banished to back-issue bins.

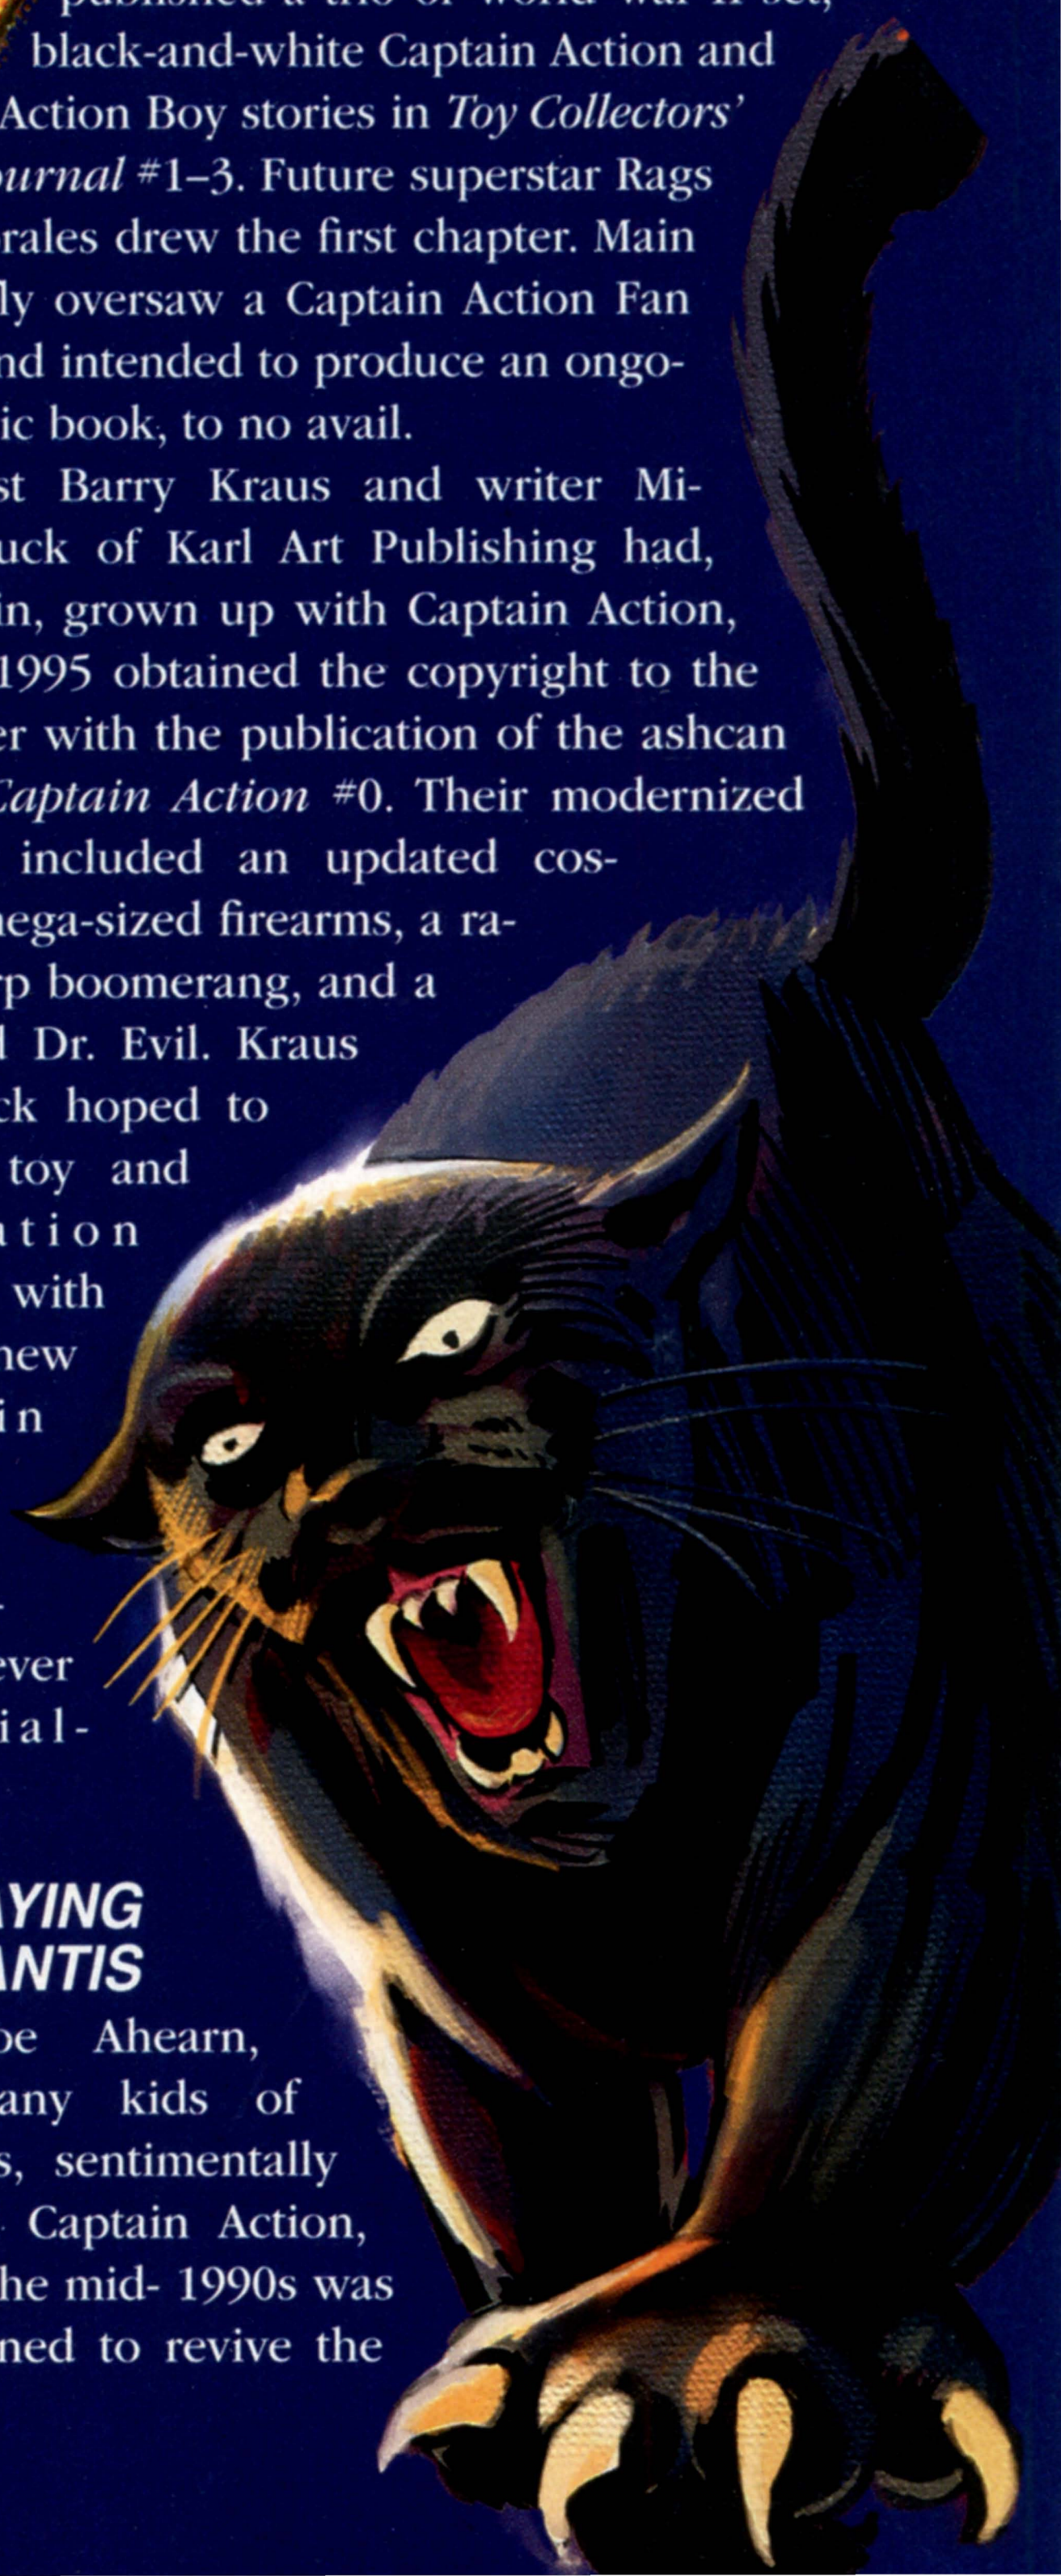

Until January 1987. With the demise of Ideal

Toys in the early 1980s, it appeared that no one owned the rights to Captain Action. Taking advantage of this was longtime Captain Action booster Jim Main, at the time known for publishing toycollecting journals. Main, as writer, revived the hero as the leader of a S.H.I.E.L.D.-like team in *Lightning Comics' A.C.T.I.O.N. Force* #1, illustrated by Gordon Purcell and Steve Shipley. Two years later, Main published a trio of World War II set, black-and-white Captain Action and Action Boy stories in *Toy Collectors' Journal* #1-3. Future superstar Rags Morales drew the first chapter. Main briefly oversaw a Captain Action Fan Club and intended to produce an ongoing comic book, to no avail.

Artist Barry Kraus and writer Michael Luck of Karl Art Publishing had, like Main, grown up with Captain Action, and in 1995 obtained the copyright to the character with the publication of the ashcan comic *Captain Action* #0. Their modernized version included an updated costume, mega-sized firearms, a razor-sharp boomerang, and a retooled Dr. Evil. Kraus and Luck hoped to broker toy and animation deals with their new Captain Action, but no agreements ever materialized.

## PLAYING MANTIS

Joe Ahearn, like many kids of the '60s, sentimentally recalled Captain Action, and in the mid-1990s was determined to revive the

toy in a marketplace growing accustomed to reissues promoted toward collectors. Ahearn petitioned Tom Lowe, president of Playing Mantis, a manufacturer of collectors' toys, to revive Captain Action, and after an initial rejection Lowe agreed. Playing Mantis signed a licensing agreement with Karl Art Publishing and in 1998 re-released Captain Action and Dr. Evil, plus Captain Action as both the Green Hornet and the never-before-produced Kato. The figures were released in a book-like box, with the Hornet and Kato figures sold on Captain Action figures instead of being released simply as costumes. Package art came from Carmine Infantino, with an uncredited Joe Orlando providing finishes. Three additional Captain Action reissues followed—Lone Ranger, Tonto, and Flash Gordon—plus the first-ever Dr. Evil villain costume, Ming the Merciless, on a now-rare Dr. Evil figure molded in tan instead of blue. Due to the public's unfamiliarity with the characters and a high price point, this Captain Action revival flopped.

At the urging of a persistent Ahearn, Playing Mantis, in conjunction with Diamond Distributors, gave Captain Action another shot, and from 1999 to

2000 rebooted the line, this time in packaging that mimicked Ideal's original boxes. Captain Action and Dr. Evil were back, Action Boy was released but renamed Kid Action due to

a trademark concern, and window-boxed outfits followed: the Phantom, the Phantom's foe Kabai Singh (for Dr. Evil), Lone Ranger (in a blue-suit variation), and Green Hornet and Kato. Speed Racer and Jonny Quest costumes were also in the works. But the line failed to catch on, partially because of the pessimism of some retailers burned by the earlier reissues. Captain Action was once again relegated to the dustbins of nostalgia.

## NEW ENTERPRISES

But not for long. In 2002, TwoMorrows Publishing released my history/sourcebook, *Captain Action: The Original Super-Hero Action Figure*. In 1998 and 1999 I interviewed several toy professionals and comics creators involved with Captain Action, and wrote the book the following year for a different publisher, one that was unable to complete the project. Luckily, TwoMorrows publisher John Morrow offered *Captain Action* a home (and a revised second edition in 2009).

During my research I became friends with Joe Ahearn, indisputably Captain Action's most tenacious supporter. We pitched to Marvel Comics a Captain Action-like 12-inch action figure called Marvel Man, who could assume the guises of other Marvel super-heroes, but this went no further than a few conversations.

If Captain Action has a "real" super-power, it is the bottomless resolve of Joe Ahearn. Joe partnered with Ed Catto in 2006 to form Captain Action Enterprises, and they eventually acquired the property. This dynamic duo unleashed a campaign to place Captain Action in the public eye, starting with the announcement of a new comic series to be produced by Moonstone in 2008. A call went out to writers to pitch ideas for a Captain Action revival.

THIS IS A JOB FOR CAPTAIN ACTION AND COMPANY... THE REAL MCCOY!

HOLD THEM FOR ME, ACTION BOY... WHILE I TACKLE THAT PHONEY!

WHAT THE...?

ANOTHER ONE!!

The winner was Fabian Nicieza, who contemporized the concept while paying homage to its roots.

Tackling the identity crisis which helped defeat Ideal's hero, Nicieza made Captain Action a super-spy, an operative for the A.C.T.I.O.N. Directorate, a covert agency that used super-heroes (the Protectors) in a war against a secret otherworldly threat known as the Red Crawl. Miles Drake was the original Captain Action, while his son Cole stepped into his father's role as the new Captain. Nicieza and artist Mark Sparacio introduced original super-heroes into the mix, analogs to the characters licensed by Ideal (Savior for Superman, for example), and the new Captain used a substance called "plasmaderm" to replicate their identities and powers.

At Moonstone, *Captain Action Comics* and its follow-ups also featured the talents of writers Marv Wolfman and Steven Grant, with covers by John Byrne, Mike Allred, Paul Gulacy, Dick Giordano, and other fan-favorites. Action Boy and Dr. Evil were reintroduced, but the breakout character was Lady Action, a British super-spy inspired by model/actress Niki Rubin, whose live promotional appearances as Lady Action at comic conventions earned her—and the character—a fan following. Moonstone also published Captain Action miniseries and specials featuring team-ups with retro heroes the Phantom, Green Hornet and Kato, Honey West, and That (Our) Man Flint.

Meanwhile, Captain Action Enterprises expanded their brand with a torrent of products, including T-shirts, Mego-sized figures, and a comic novella and pulp novel. An agreement with toy manufacturer Round 2 produced a revitalized line of 12-inch figures and costumes, which began in early 2012 with Captain Action and Dr. Evil, plus Spider-Man and Captain America uniforms. The line continued with an arctic Captain Action variation, plus costumes for Thor, Loki, Iron Man, and Wolverine,

along with Hawkeye, whose "Assemble an Avenger" costume was released in stages as bonuses inside the other Marvel ensembles. A line of DC super-hero costumes for Captain Action is planned but at this writing has yet to materialize. Other releases include a 16-inch Lady Action doll from Tonner (with Wonder Woman and Supergirl costumes) and a Captain Action "Amazing Heroes" action figure. A Captain Action animation series is in development, with Marv Wolfman as lead writer.

Dynamite Entertainment became Captain Action's new comic-book home in 2013 with the release of its five-issue miniseries *Codename: Action*, by Chris Roberson and Jonathan Lau. This critically acclaimed Cold War-era epic followed tough-guy spy Operative 1001's evolution into Captain Action, and guest-starred other retro heroes including the Spider and Green Lama. In 2014 Dynamite also published the four-issue miniseries *Captain Action Cat: The Timestream CATastrophe*, by cartoonist Art Baltazar, with Franco and Chris Smits. This all-ages crossover combined feline versions of Captain Action and company with Aw Yeah Comics!'s Action Cat, plus cartoon versions of Dark Horse Comics' X and Ghost.

So, who is this Captain Action? Is he a quick-change super-hero, a spy, a woman, or a cat? He's all of the above, and more. Imagination has driven his various incarnations, from plastic to print, and with that in his weapons arsenal, Captain Action should be fighting injustice for at least *another* fifty years!

Overstreet adviser Michael Eury coined the phrase "*The Original Super-Hero Action Figure*" as the subtitle of his Captain Action book from TwoMorrows. For that publisher he is the editor-in-chief of *BACK ISSUE* magazine and the author of several comics-history books. He has also produced material for a host of clients including Arcadia Publishing, DC, Marvel, Dark Horse, Nike, and Toys R Us.

# THE INHUMANS!

at 50

Living hair, the power to destroy entire cities with one spoken word, the ability to teleport people with pinpoint accuracy or locate the weak spot in any substance—welcome to the world of the Inhumans! Living in isolation, the Inhumans are one of the most powerful races on the planet. Created by the Celestials to be evolutionary superior beings

on the Earth, these primitive homo-sapiens were experimented on by the Kree, a race of warlike aliens at war with the Skrull Empire. The goal was to develop a race of Inhumans bred to be used against the Skrulls. Based on an ill-fated prophecy, the Kree abandoned their experiments on the Inhumans.

Developing their society in secret, the Inhumans

set up a monarchy led by their king, Black Bolt, and the Royal Family: Medusa, Triton, Gorgon, Crystal, Karnak, the canine-like Lockjaw, and Maximus, Black Bolt's insane brother. The Inhumans as a Royal Family were first introduced to the world in *Fantastic Four* #45 (December 1965), although Medusa and Gorgon appeared earlier in *Fantastic Four* #36 and #44, respectively. During her early appearance, Madam Medusa was part of the Frightful Four alongside Paste Pot Pete, Sandman, and Wizard.

After a seven-issue run as a backup feature beginning in *Thor* #146, the Inhumans went on to co-star in a 10-issue run of *Amazing Adventures* starting with issue #1 (August 1970). In October of 1975 the Inhumans starred in their own titled book which ran for 12 more issues.

For most of their existence, the Inhumans lived in a domed city, Attilan, located in the Himalayans. When the area was no longer a secret to the rest of the world, Black Bolt chose to move Attilan to the Blue Area of the Moon (*Fantastic Four* #240). Members of their society were given specific abilities that were made apparent after being exposed to a mutagenic Terrigen Mist. Many members of the Inhumans not only developed fascinating powers, but also underwent physical transformations, as is most evident in the appearance of Lockjaw, the canine-like Inhuman that has incredible powers of teleportation. Crystal, the first known Inhuman to marry outside the Inhuman race (*Fantastic Four* #150), gave birth

to a daughter, Luna. The child is the first crossover between Inhumans and mutants, with Quicksilver being the father.

In July 2005 it was discovered that Black Bolt was a member of the super powered group – the Illuminati—formed to quietly deal with threats of a global scale (*New Avengers* #7). Following the attack of the Earth by the shape-shifting Skrulls in *Secret Invasion* #1-8, it was revealed that Black Bolt was actually a Skrull in disguise. Captured by the Skrulls at an unspecified time, he becomes a weapon for the Skrulls master plan: to use his destructive vocal powers against the Kree. In *Secret Invasion: Inhumans* #4, Black Bolt is rescued by his wife, Medusa.

Following an attack on the Inhumans by Thanos in an attempt to destroy his half-Inhuman son, Thane, it is discovered that secret Inhuman tribes have mated with Homo sapiens, creating normal-looking humans that possess a dormant Inhuman gene. Attilan, once hidden in the Himalayas and on the moon, now resides above the planet Earth. In an attempt to thwart Thanos' attack, Attilan is evacuated and Black Bolt and Maximus destroy the city (and hence Thanos), by detonating a Terrigenesis bomb (*Inhumanity* #1). The mist spreads across the world, transforming humans with the latent Inhuman gene into Inhumans with special powers. Medusa takes over the Inhumans as Queen as Black Bolt has disappeared.

# NICK FURY, AGENT OF... SHIELD AT FIFTY

*Well before S.H.I.E.L.D. showed up in the Marvel films or got its own TV series, it became part of the tapestry of the Marvel universe. With former World War II hero Nick Fury as its director and best agent, a blend of spycraft and super-heroics has kept things interesting for five decades worth of stories.*

From his journey from the battlefields of World War Two to the flying headquarters of S.H.I.E.L.D., Nick Fury has proven himself to be one of the greatest leaders in the history of comics.

While Stan Lee came up with the name *Sgt. Fury and His Howling Commandos*, it was former serviceman Jack Kirby who fleshed out the characters and concept. The first issue released in May of 1963, with the inks by Dick Ayers, a World War II veteran, who would go on to illustrate the series for 10 years.

As the story goes, after enlisting in the Army in 1941, Fury was recruited to join the U.S. Rangers, where he was given command of his own squad, The Howling Commandos. In their battles against the Nazis, Fury and company encountered a number of dangerous foes; none were more dedicated and dangerous than Baron Wolfgang von Strucker, who first appeared in *Sgt. Fury and His Howling Commandos* #5.

After an unfortunate encounter with a landmine at the end of World War II, Fury was found by Berthold Sternberg, who used Fury as a test subject for the Infinity Formula. The treatment slowed down his aging process considerably, but it also set him up for years of blackmail at the hand of Sternberg himself.

These details were unveiled in *Marvel Spotlight* #31, which was produced by writer Jim Starlin and artist Howard Chaykin, after it started to become obvious to the audience that Fury had been unreasonably healthy and young for a few too many years.

In the years following WWII, Fury served in Korea and worked with various intelligence agencies, such as the CIA, as an espionage agent. Fury also worked as a liaison to the various super-powered teams, such as the Fantastic Four, that had begun appearing in public around this time. Also around this time, Fury began sporting his now-trademark eyepatch – he had taken shrapnel to his eye during the war which caused him to slowly lose sight in it over the years.

Eventually the Supreme Headquarters, International Espionage, Law-Enforcement Division – better known simply as S.H.I.E.L.D. – came calling for Fury. Working first as a simple agent, he eventually would become the second commander of the agency as its Public Director. Fury soon became the superhero community's primary contact when information related to the government was necessary in order to solve a crisis or problem.

It was the team of Lee and Kirby who created the concept of S.H.I.E.L.D. and set it in motion, but it was artist Jim Steranko who truly established its tone and atmosphere. In 1965, when the agency first appeared in *Strange Tales* #135, owing chiefly to the success of Ian Fleming's James Bond, secret agents and spy gadgets permeated pop culture in films and other stories, and Kirby took the idea to the extreme. The grizzled ex-spy Fury made the perfect leader for such a team, and with his eyepatch and touches of gray hair, he certainly looked the part.

While Fury was running S.H.I.E.L.D. he not only fought the likes of Hydra, but also continued to develop a relationship with the superhero community, especially with the likes of Tony Stark and Steve Rogers. However, over the years, Fury began to feel alienated from his work and from his friends, eventually leaving the organization after leading it for decades. During Marvel's *Civil War* storyline, Fury went completely AWOL; his growing discomfort with Tony Stark's Superhero Registration Act combined with the corruption he saw in the organization led him to this decision.

After working undercover with the Secret Warriors for a number of years and

assisting S.H.I.E.L.D. from the sidelines, Fury retired and allowed his son, Marcus Johnson (or Nick Fury, Jr.) to take over. But that didn't mean he hung it up for good – the original Fury most recently played a crucial role in Marvel's *Original Sin* storyline, where he ended up taking on the role of Uatu the Watcher as "The Unseen."

While Nick Fury may be known by millions today from Samuel L. Jackson's portrayal of the character across the Marvel Cinematic Universe, his impact in the comics goes far beyond that. Whatever happens with Fury next is sure to be just as enthralling as his life has been so far.

# DONNA TROY: WONDER GIRL at 50

The idea of the sidekick has been around almost since the creation of the superhero itself. From Robin to Bucky and every kid in between, young heroes and heroines have often accompanied their adult counterparts. And while the adult heroes had their own massively popular team-ups, the kids had their own – the first being DC's Teen Titans. One member of the Titans made her debut with the team 50 years ago, Wonder Woman's younger sister, Wonder Girl.

Wonder Girl, also known as Donna Troy, was introduced as a member of the Teen Titans in *The Brave and the Bold* #60 in July of 1965, where she – alongside Robin, Kid Flash, and Aqualad – founded the team. Though a tween version of Wonder Woman previously appeared in comics and had been referred to as “Wonder Girl,” this was a brand-new character. The origin given to Donna was that she was a non-Amazon orphan rescued by Wonder Woman and brought to Paradise Island, where she was eventually given Amazonian powers. However, this origin would be retconned and revised numerous times since her debut.

Donna Troy fought alongside the Titans throughout the 1960s and into the '70s, only leaving

the team when it broke up entirely in 1978 (which coincided with the cancellation of the *Teen Titans* series entirely). The series would be revived two years later as *The New Teen Titans*, and it would eventually explore Donna's origin story in detail.

Following the storyline *Crisis on Infinite Earths* which basically rewrote the entire DC Comics continuity, Wonder Woman's history was completely written out of existence, and Wonder Girl was similarly retconned. In *The New Titans* #50- #54, the storyline of "Who Is Wonder Girl?" helped to explain the then-new backstory for the character, which involved the Titans of Myth using Donna against the Sparta of Synriannaq.

Though Donna's origin as an orphan remained intact, she was given the distinction of being a "Titan Seed," the savior of the Titans themselves. Sparta was similarly a Seed, but went mad and tried to kill her fellow Seeds in an attempt to collect their powers and destroy the Titans of Myth. After this storyline wrapped, Donna changed her alias to "Troia" and began incorporating her new origin related to the Titans in a new costume.

The events of *One Year Later* in 2006 proved to be significant for Donna as she took on the mantle of Wonder Woman; Diana stepped down after *Infinite Crisis*. This story once again revamped her origin story, changing it to where she was magically created as Diana's twin to be a playmate for the princess. As Wonder Woman, Donna fought against the likes of classic enemies such as the Cheetah and Giganta, but Donna soon relinquishes the title and gives it back to her sister.

Most recently, in *The New 52* line, Donna Troy has taken over for her sister as the queen of Themyscira (formerly known as Paradise Island) while Wonder Woman is absent.

Regardless of her various origin stories and titles she's had throughout the last 50 years, Donna Troy remains one of DC's most powerful ladies. Here's to another 50!

# THUNDER AGENTS at 50

The T.H.U.N.D.E.R. Agents, which appeared for the first time 50 years ago in the November 1965 cover-dated *T.H.U.N.D.E.R. Agents* #1 from Tower Comics, were a different kind of team of superheroes. Like S.H.I.E.L.D. or U.N.C.L.E. and many other titles of that time, the "T.H.U.N.D.E.R." name was an acronym for "The Higher United Nations Defense Enforcement Reserves."

Super-powered agents Dynamo, NoMan, Menthor, Lightning and Raven were aided by a highly trained but normal back-up team called the T.H.U.N.D.E.R. Squad. Like Marvel's Iron Man, the main characters received their powers from technology rather than through any of the other traditional superhero tropes. Taking it a step farther, the portrayals of the characters often made it seem as if being heroes was their day job, one from which they went home at night like any regular person.

Created by writer Len Brown and veteran EC artist Wally Wood, *T.H.U.N.D.E.R. Agents* featured

work by an all-star team of fellow creators, including writers Larry Ivie, Bill Pearson, Lou Silverstone, and Steve Skeates, and artists Jack Abel, Dan Adkins, Richard Bassford, Tony Coleman, Reed Crandall, Steve Ditko, Mike Esposito, Frank Giacoia, Joe Giella, John Giunta, Carl Hubbell, Gil Kane, Ralph Reese, Paul Reinman, Mike Sekowsky, Manny Stallman, Chic Stone, George Tuska, and Ogden Whitney.

In addition to the team that worked on the main title, the spin-off series *Dynamo* saw the addition of artist Dick Ayers to the roster, *NoMan* included Al Williamson, and *Undersea Agent* featured, among others, the art of Ray Bailey and Sheldon Moldoff.

After 20 issues of *T.H.U.N.D.E.R. Agents*, six of *Undersea Agent*, four of *Dynamo*, and two of *NoMan*, as well as paperback collections of *Dynamo*, *Menthor*, *NoMan*, and *Terrific Trio*, Tower called it quits on the team. *T.H.U.N.D.E.R. Agents* #20, the last issue of the series, was cover-dated November 1969

and it came out a year after #19. That wouldn't be the end, though.

John Carbonaro's John C. Productions took up the THUNDER mantel beginning in 1981 with *JCP Features*, followed by *T.H.U.N.D.E.R. Agents* #1 (1983), and *Hall of Fame Featuring The T.H.U.N.D.E.R. Agents* #1 (1983).

The team next appeared in Texas Comics' *Justice Machine Annual* #1 (1983, also featuring the first appearance of The Elementals), followed by Archie's *Blue Ribbon Comics* volume 2 #12.

Deluxe Comics launched Wally Wood's *T.H.U.N.D.E.R. Agents* in 1984. Although short-lived and eventually found to be in violation of Carbonaro's copyright of the characters, the series brought such talents as writers Roy and Dann Thomas, and artists Murphy Anderson, Rich Buckler, Dave Cockrum, Keith Giffen, Mike Harris, Jerry Ordway, and George Pérez along with *T.H.U.N.D.E.R. Agents* veterans Dan Adkins and Steve Ditko.

Once the Deluxe Comics series ended in 1986, it would be more than 15 years before fans again got a regular dose of the characters. They did appear in one-off appearances from Dark Horse (*Boris The Bear* #11), Apple/WaRP (*Thunder Bunny* #11), Solson Publications (*THUNDER* #1), and Omni (*Omni Comix* #3), but that was it.

Then in 2002 DC Comics licensed the characters and began putting out hardcover collections of the original material. The *T.H.U.N.D.E.R. Agents Archives* collected every issue of the main series, *Dynamo* and *NoMan* in six volumes. The art was cleaned up and restored. A seventh volume featuring the Deluxe material did not get the full treatment and is substantially inferior to the rest of the series. Under their license, DC also produced two new original series before the license moved to IDW Publishing.

# CAPTAIN CANUCK

In May 1975, Richard Comely, then 24, with a \$7,000 loan and operating as Comely Comix, published the first issue of his *Captain Canuck* comic book series from Winnipeg, Manitoba. The character was an instant hit. To millions of Canadians he became “Canada’s own Superhero.”

Media coverage was unprecedented, comic book sales were outstanding, and Captain Canuck got off to a great start. In 1979, Captain Canuck became the first and only Canadian published comic book distributed on the mass market throughout the United States. Unfortunately, due to financing and management shortcomings, the original series was published intermittently until 1981. Media and fan interest continued over the next decade.

In 1992, the National Archives in Ottawa featured a six-month exhibition of Captain Canuck scripts, original art, comic books and paraphernalia. They also purchased much of the remaining original art from Comely.

Comely Communications Inc. was incorporated in 1993 to revitalize the series. The *Captain Canuck Reborn* comic book series began in 1993, but was underfunded and at the beginning of an unexpected and considerable decline in comic books sales in North America. Four issues of *Captain Canuck Reborn* were published and a newspaper comic strip was syndicated to eight Canadian newspapers until 1996.

Captain Canuck answered the call to civic duty on several occasions including from 1994-1996 when he was featured in the Drug Free Canada PSA campaign. In 1995, Canada Post issued 6 million 45-cent Captain Canuck postage stamps, and in April 1997 Captain Canuck donned his diplomatic hat to appear on the cover of *Time* magazine. The cover story dramatized Canada’s role as an exporting power.

The *Captain Canuck Unholy War* comic book mini-series was released in September 2004. This series did well in the comic book specialty store market and was a success for the publisher who had licensed the rights from Comely. In this series, a RCMP officer created his own costume and became the West Coast Captain Canuck. The success of this mini-series demonstrated that there was a pent up demand for the property.

The first issue of the yet-to-be-completed four-part series *Captain Canuck Legacy* was released in September 2006. Again the comic found eager – if patient – fans.

Scott Dunbier from IDW Publishing contacted Comely to acquire publishing rights for the two hardcover volumes, collecting issues #4 to #14 of the original 1975 run. The volumes were published in late 2009 and in 2010. Both editions sold out.

In late 2011, IDW published *Captain Canuck: The Complete Edition*, as a 375-page trade paperback. This edition included issues #1-3, 4-14, issue #15 and #1.5 of the *Legacy* series. The first print run sold out and led to a second.

Richard Comely and his two assistants, noted artist and colorist George Freeman and artist Claude St. Aubin, were inducted into the Joe Shuster Canadian Comic Book Creator Awards Hall of Fame on June 5, 2010 celebrating Captain Canuck’s 35th anniversary.

Captain Canuck was featured in *Maxim* magazine in the May 2008 edition as one of the super heroes to watch for as an upcoming movie sensation.

Mind’s Eye Entertainment is presently developing a *Captain Canuck* feature film and Vancouver-based screenwriter Arne Olsen has completed a second draft. As of this writing, production could begin in late summer 2015 in Vancouver, BC or Winnipeg, Manitoba.

Captain Canuck Inc. was formed in 2013 by Fadi Hakim, who signed a master license agreement for the character. An animated web series was first released on Canada Day 2013 (available at [captaincanuck.com](http://captaincanuck.com)). There were five webisodes in the series.

In late June 2014 the *Captain Canuck Canada Day Summer Special* was released with a distribution of 50,000 copies across Canada through libraries, malls, convenience stores and, of course, Canadian comic book stores in all ten provinces. This edition marks the first time a comic book has included an endorsement letter by the Governor General of Canada.

The web series and the *Summer Special's* success made way for plans for a long awaited return to print in 2015, Captain Canuck's 40th anniversary.

The 40th Anniversary publishing checklist includes a Free Comic Book Day Edition (the first), a new Summer Special, a six part miniseries, and a 40th Anniversary graphic novel to be available in time for Christmas. This trade paperback edition will feature all the comics published under the 40th Anniversary banner.

THE NEW

# X-MEN

Though Storm, Nightcrawler and Colossus have been some of the most popular mutants the X-Men have ever had, they weren't the original team. Alongside Thunderbird these characters were introduced in *Giant-Size X-Men* #1, which debuted in May 1975 – 12 years after the first *X-Men* book hit the stands.

Professor X recruited these mutants to help form a brand-new team of X-Men after the original team – Jean Grey (who was going as Marvel Girl at the time), Iceman, Angel, Havok, and Polaris – had disappeared on a mission. Cyclops had been with the team and was the only one able to escape. While new recruits had been added to the original team since its inception (namely Havok and Polaris) and other mutants had been introduced since then (Sunfire, Banshee, and Wolverine), this was truly the start of the second generation of the X-Men.

Wolverine, Storm, Banshee, Nightcrawler, Colossus, and Thunderbird band together to form the new X-Men and soon learn that the island where their fellow mutants disappeared – Krakoa – is not simply an island. Rather, Krakoa happens to be a giant mutant. The new team rescues the old X-Men and are able to eliminate Krakoa by literally throwing it into space with Polaris' abilities.

The story of *Giant-Size X-Men* #1, "Second Genesis," was written by Len Wein; it was reprinted in *Classic X-Men* #1, but cut down for length with a heavy amount of editing. Though #1 had this storyline as new material, *Giant-Size X-Men* #2, released later in 1975, did not; it instead featured reprints of earlier *X-Men* stories. The third issue in the series wouldn't be released for another 30 years (incidentally, with a cover that paid homage to the first issue).

While the story of the book was concluded by the time readers hit the back cover,

the new characters introduced had an lasting impact on the mutant race of the Marvel Universe as a whole.

Thunderbird, also known as John Proudstar probably had the biggest immediate impact, as he was killed off on the new X-Men's second mission. After rescuing the original team, he butted heads with Cyclops and with Professor X, and his stubborn attitude is what ultimately got him killed. While in pursuit of Count Nefaria, Thunderbird jumped on board the jet in which Nefaria was attempting to flee. Though Professor X told him to escape, he refused, and was killed in the jet's explosion. Since then, he has resurfaced in the 2010 Chaos War storyline as well as in alternate universes and realities such as *House of M* and *Earth X*.

Colossus and Nightcrawler became exceedingly popular as the years went on; both featured prominently in the 1990s *X-Men* cartoons and related media such as video games, and both have had significant roles in Fox's live-action film adaptations. Colossus went on to join forces with other teams, such as the Defenders and X-Force, while Nightcrawler, though he dabbled with the Excalibur team, stayed primarily affiliated with the X-Men.

Storm easily became the most prominent of any of the new additions to the team since she stepped forward. Not only would she go on to lead her own team of mutants, star in multiple solo books, and marry Black Panther, but she also happened to be the first black woman to have a significant role in comic books. Since then Storm has been recognized as one of the most successful and recognizable black superheroes.

Though the 68 pages of *Giant-Size X-Men* #1 have since been relegated to the history books, the characters introduced within have continued to entertain readers everywhere. Thanks to this one book, some of the most important mutants were introduced to the Marvel Universe, and while it's been 40 years since the debut, the story's as relevant as ever.

# CRISIS

## ON INFINITE EARTHS AT 30

There have been many major crossover events within the world of comics over the years, but none had quite the impact as DC's *Crisis on Infinite Earths* in 1985. The event ran for almost a full year (April 1985 through March 1986) and had far-reaching consequences for the entire DC universe.

*Crisis* was written by Marv Wolfman and illustrated by George Perez, Mike DeCarlo, Dick Giordano and Jerry Ordway; the main series consisted of just 12 issues but had a number of tie-in books. Though originally thought of as a way to help celebrate the 50th anniversary of DC Comics, Wolfman and Len Wein instead saw it as an opportunity to help fix the continuity issues that had plagued the company. Conflicting storylines and backgrounds had persisted with a number of major characters, such as Batman, the Flash, and Green Lantern; Superman in particular had issues with his backstory. Despite being introduced as the lone survivor of the planet Krypton's destruction, other characters – Supergirl and Krypto, especially – disproved this part of his backstory. So the decision was ultimately made to use *Crisis on Infinite Earths* as a way to help resolve these issues by eliminating certain characters from the universe and essentially hitting a reset button on many storylines.

In the lead-up to *Crisis*, the character of the Monitor was introduced throughout other DC books; once the event started, this character was killed by his assistant, Harbinger, which gave rise to Monitor's counterpart, the Anti-Monitor. The death of the Monitor allowed the creation of a temporary "limbo" universe in which five parallel Earths existed simultaneously.

The Anti-Monitor's goals involved forcing these five Earths together to destroy all of them in favor of his Anti-Matter reality. This led to heroes and villains from these uni-

verses having to band together to defeat the greater threat at hand. Ultimately, the heroes must travel back to the dawn of time itself – the creation of the previously existing multiverse – in order to stop the Anti-Monitor. The five Earths end up being successfully merged into one that retains elements from each of the five, with nobody, save for those who went to the dawn of time, remembering their original Earth.

Though ultimately the heroes were successful in their defeat of the Anti-Monitor and the establishment of a new, unified Earth, there were many consequences and losses in their fight. Notable deaths in *Crisis* included that of Supergirl of Earth-1, Robin of Earth-2, Barry Allen (the current Flash), Clayface, Green Arrow of Earth-2, Huntress of Earth-2, the Crime Syndicate of America, and many others.

These deaths led to many changes with classic heroes and new characters being developed. For example, Wally West, the original Kid Flash, took over for Barry Allen as the Flash after Allen's death during *Crisis*. The Green Lantern Corps were also reorganized in the new universe.

*Crisis on Infinite Earths* still stands today as one of the most significant comic book events in DC's history, and its legacy can be seen in the (seemingly also infinite) homages to the story in multiple media by multiple companies in the 30 years since. Alongside other DC releases at that time – namely 1986's *Watchmen* and *The Dark Knight Returns* – *Crisis* helped revitalize the company and set up their modern era of books. It also helped to popularize the idea of a crossover event, which continue to be seen by DC's 2015 *Convergence* event and similar crossovers by other companies.

# OVERSTREET PRICE GUIDE BACK ISSUES

The Overstreet® Comic Book Price Guide has held the record for being the longest running annual comic book publication. We are now celebrating our 45th anniversary, and the demand for the Overstreet® price guides is very strong. Collectors have created a legitimate market for them, and they continue to bring record prices each year. Collectors also have a record of comic book prices going back further than any other source in comic fandom. The prices listed below are for NM condition only, with GD-25% and FN-50% of the NM value. Canadian editions exist for a couple of the early issues. Abbreviations: SC-softcover, HC-hardcover, L-leather bound.
